GLOBAL LEARNING AND INTERNATIONAL EXCHANGE PROGRAMS

City College Jayanagar offers extensive international collaboration opportunities for both students and faculty through our robust exchange programs. Our students benefit from these global partnerships by participating in international study programs and gaining exposure to diverse business practices and technological advancements. Each year students can attend international programs in Malaysia and other countries, where they can earn valuable certifications and broaden their understanding of the global business landscape. These experiences are designed to enrich their education, enhance their professional skills and prepare them to excel in an increasingly interconnected world. Join us at City College Jayanagar and take advantage of these unique opportunities to learn, explore and grow on an international stage.
