Criteria 3.24

INDIAN KNOWLEDGE SYSTEM

Students of CITY COLLEGE are exposed to the IKS AND IPR awareness programmes by conducting seminars and workshops every semester in the lecture hall by the industrialists and entrepreneurs.

IKS, the Indian Knowledge System is passed down systematically from generation to the generation. It is an organized system and a method of knowledge transfer. The National Education Policy, or NEP, 2020, takes as its guiding premise the rich legacy of timeless Indian knowledge and philosophy. The Jnan, Vignan, and Jeevan Darshan knowledge systems of India have developed from experience, observation, experimentation, and thorough analysis. Our education, arts, administration, law, justice, health, manufacturing, and commerce have all been touched by this legacy of validating and putting into practice. This has had an impact on Bharat's classical and other languages that were passed down through creative, oral, and literary traditions. It encompasses knowledge of ancient India, its achievements and difficulties, as well as an understanding of India's future goals with regard to ecology, health, education, and really every facet of existence.

The Bharatiya way is sustainable and strives for the welfare of all. It is important that we regain the comprehensive knowledge system of our heritage and demonstrate the "Indian way" of doing things to the world. This requires training generations of scholars who will demonstrate and exemplify to the world a way of life so unique and peculiar to our great civilization.

The NEP, 2020 recognizes this rich heritage of ancient and eternal Indian knowledge and thought as a guiding principle. The Indian Knowledge Systems comprise of Jnan, Vignan, and Jeevan Darshan that have evolved out of experience, observation, experimentation, and rigorous analysis. This tradition of validating and putting into practice has impacted our education, arts, administration, law, justice, health, manufacturing, and commerce. This has influenced classical and other languages of Bharat, that were transmitted through textual, oral, and artistic traditions. "Knowledge of India" in this sense includes knowledge from ancient India and its successes and challenges, and a sense of India's future aspirations specific to education, health, environment and indeed all aspects of life.

IKS Cell

Indian Knowledge Systems (IKS) is an innovative cell under Ministry of Education (MoE) at AICTE, New Delhi. It is established to promote interdisciplinary research on all aspects of IKS, preserve and disseminate IKS for further research and societal applications. It will actively engage for spreading the rich heritage of our country and traditional knowledge in

the field of Arts and literature, Agriculture, Basic Sciences, Engineering & Technology, Architecture, Management, Economics etc

Objectives of Indian knowledge system

The Indian knowledge system seeks to encourage and enable more study in a number of areas including holistic health, psychology, neuroscience, nature, the environment, and sustainable development, in order to address current societal problems. The main goal of learning from the past and integrating Indian knowledge systems is to use our ancient knowledge systems, which are characterized by an unbroken tradition of knowledge transfer and a distinctive point of view, to solve current and emerging problems in India and the world (Bharatiya Drishti).

Functions of IKS Division

The primary role of the IKS division is to encourage private sector organizations to get involved in IKS-based and related multidisciplinary and transdisciplinary work being done by numerous universities, national importance institutions, R&D labs, and institutes both in India and overseas. The other is to form, direct, and oversee multidisciplinary research groups focused on certain subjects, made up of researchers from various institutes, centers, and individuals. In addition, popularization campaigns should be developed and promoted, funding for different projects should be made easier, procedures for doing research should be established, and policy suggestions should be developed as needed to advance IKS.

Vision of IKS

To promote interdisciplinary research on all aspects of "Indian Knowledge Systems" preserve and disseminate "Indian Knowledge Systems" for further research and societal applications.

In a bid to enhance the academic landscape, City College successfully organized a Faculty Development Program (FDP) workshop on Indian Knowledge System and Indology. The event took place on 28th October 2023, drawing participation from esteemed resource persons and the college community.

Renowned figures in the field, Dr. Arathi V. B. (Chairperson Vibhu Academy) and Hari Ravikumar (Indology scholar, editor Preksha publication), spearheaded the workshop. The event was graced by the presence of College Principal Dr. Puttaraj, PUC Principal Dr. Ranganathan, faculty members from both the Degree College and Pre-University College, and enthusiastic students.

During the morning session, Dr. Arathi V. B. delved into thought-provoking topics, including the Gurukulam approach to education, post-independent Indian education style, conventional schooling platforms, 64 types of vocational education, and insights into ancient Indian universities such as Nalanda and Takshashila. The session also covered the Code of Conduct to Graduation.

Jayanagar, Bangalore-70

In the afternoon, Hari Ravikumar took the stage to elaborate on profound subjects like Upanishads, messages from the Bhagavad Gita, the five fundamental ideas of Indian philosophy, and detailed insights into Veda, Upaveda, Purana, Itihasa, Darshana, and Vedanga.

The FDP proved to be a significant milestone in enriching the understanding of the Indian knowledge system. The diverse discussions and perspectives shared by the resource persons contributed to a comprehensive exploration of the rich heritage and philosophical depth embedded in India's academic traditions.

A digital library, usually referred to as an e - library, is a collection of documents that are available online or on discs and are organized digitally. An e - library serves the functions of storing, managing and providing access to magazine articles, books, audio, files, photos and video files. E - libraries make it simple to combine different types of data, which keeps information current.

Free copies of books and periodicals are available at e - libraries. Digital may be created and used for a number of reasons. They provide you with a vast array of reasons. They may be controlled from numerous places and increase content accessibility. Here we provide a list of the benefits of an e - library so that you can fully comprehend how it operations.

Hence, in City College, the e- library of the college is registered to

1. National Digital Library of India (NDL)
2. British Council Digital Library
3. Library Information Networking (INFLIBNET)
4. Amazon Kindle.

A digital library, usually referred to as an e-library, is a collection of documents that are available online or on discs and are organized digitally. An e-library serves the functions of storing, managing and providing access to magazine articles, books, audio, files, photos and video files. E-libraries make it simple to combine different types of data, which keeps information current.

Free copies of books and periodicals are available at e-libraries. Digital may be created and used for a number of reasons. They provide you with a vast array of reasons. They may be controlled from numerous places and increase content accessibility. Here we provide a list of the benefits of an e-library so that you can fully comprehend how it operates.

Hence, in City College, the e-library of the college is registered to

1. National Digital Library of India (NDL)
2. British Council Digital Library
3. Library Information Networking (INFLIBNET)
4. Amazon Kindle.

REPORT ON INDUSTRY VISIT

Day & Date of the Event . Saturday & 20/08/2022

Venue . Bisleri International Pvt Ltd, Bidadi, Bangalore

Number of Participants . 37

Course/Semester . MBA IV Semester

OBJECTIVE OF THE INDUSTRY VISIT.

1. Helps students to understand the functioning of the industry.
2. Provides an insight into the real working environment.
3. Provides an opportunity to plan, organize and engage things.
4. A good opportunity to interact with the experts.
5. Helps to enhance their interpersonal skills.
6. Developed Confidence.
7. Learning Experience.
8. Help to understand the dos and don'ts of the industrial practice.
9. The Industrial visit makes student's choices easier.
10. Learn Management.
11. Enhanced Employability.

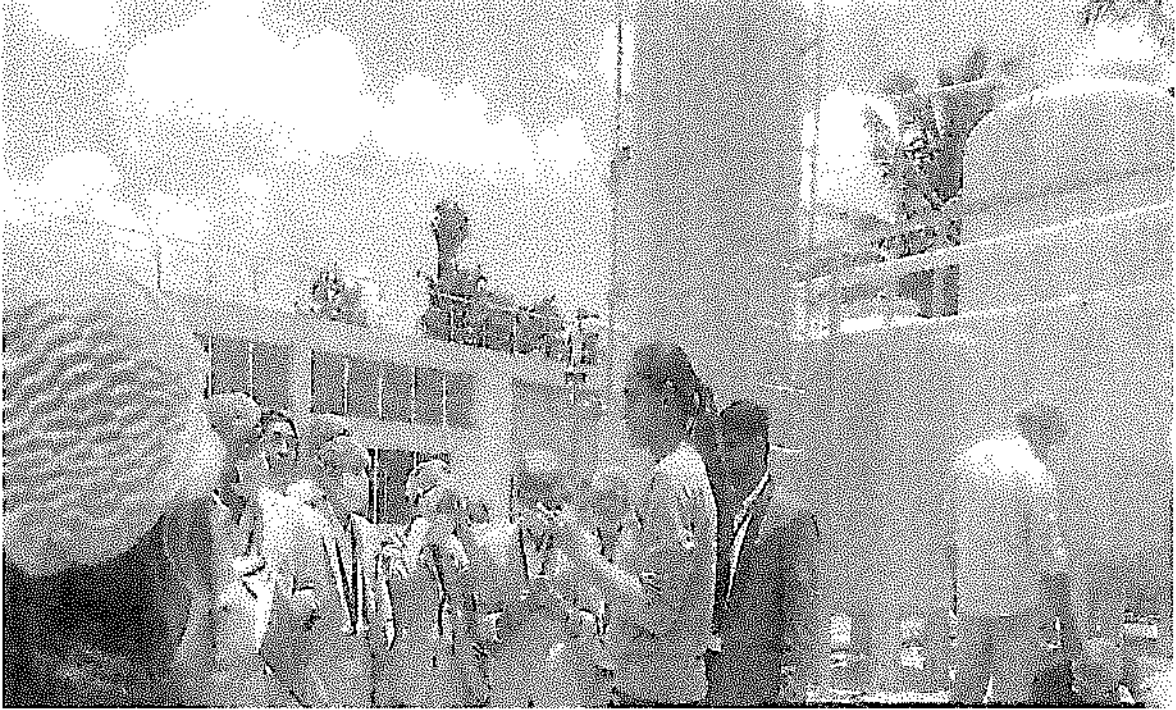

BRIEF OUTLINE ABOUT THE INDUSTRY VISIT:

Industrial visits are usually the first point of interaction between a student and a live working industry. The students learn about the latest technology trend and make up their minds about their future job or area of interest.

Industrial visit has its own importance in a career of a student who is pursuing a professional degree. It is considered as a part of college curriculum, mainly seen in management courses. Objectives of industrial visit are to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career.

It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at college. Industrial visits provide an excellent opportunity to

interact with industries and know more about industrial environment. Industrial visits are arranged by colleges to students with an objective of providing students functional opportunity in different sectors like IT, Manufacturing and services, finance and marketing. Industrial visit helps to combine theoretical knowledge with industrial knowledge.

The college organizes industrial visits to help students understand about the practical aspects of production, marketing, labour relations and other activities managed by industrial sectors. Industrial visits to factory units of Prologue, Pantaloon, etc. were arranged for students. The college is actively working for improving the knowledge of their students by acquainting them with fundamental concepts and organizing seminars, workshop and guest lectures by eminent banking and industrial personalities. We also arrange regular competitions, paper presentations, projects, assignments, quiz, group discussion, management games, field survey, posters, etc.

OUTCOME OF THE INDUSTRY VISIT.

The industrial visits will also help to keep the brilliant post graduate students up-to-date with knowing about the prevalent technologies and significant changes happening in the market. These industrial visits will also give an amazing opportunity to the bright students to get to know about the latest trends of the industry.

The industrial visits and educational trips also provide the undergraduate and postgraduate students with a day off from the everyday life and daily melancholy. Theory classes can be extremely melancholic at times. The industrial trips are the best way to provide the students with a fruitful break.

Let's look at some of the beneficial aspects of an industrial visit.

- Offers practical training
- Opportunity to interact with big businesses

- Chance to explore different aspects of manufacturing, processing and production
- Brings face-to-face with industrial realities
- Illusions about a workplace are considerably solved
- Develops interpersonal skills
- Regular visits help to identify different areas of work

Industrial visits are also a great way to gauge career readiness. It creates realistic ideas about the workplace and a lot of misconceptions can be cleared. These visit focus on the operational aspects of a factory. It allows students to know more about the machines, how various techniques are employed to get optimum results and the kind of facilities available at a factory.

A beverage factor, for instance, may be the perfect example of combining safety with high-tech procedures. Here students can learn more about bottling, packaging, distribution, handling and recycling. Most of these steps will be mentioned in a book but, students will never appreciate or understand the process thoroughly unless they witness it first-hand.

Industrial visits provide the post graduate students with great opportunities to interact with the professionals and industry experts. It provides the students with an opportunity to meet the industrial leaders, policymakers, industry professionals, corporate, and entrepreneurs. These experts and professionals will definitely share their experiences, knowledge, wisdom, lessons, and learning with the students which will help them a lot to make a great career.

ACADEMIC YEAR 2023-2024

Report on Motivational Talk FORMULA FOR SUCCESS conducted at IIMB

Day & Date of the Event - Monday 20.5.2024

Venue - City College

Number of Participants – 95

BRIEF OUTLINE ABOUT THE PROGRAM:

On 20.5.2024, a motivational talk titled "Formula for Success" was held at IIMB, organized by our City College. The keynote speaker Prof Abhinandan, a renowned motivational speaker and author, shared valuable insights and practical strategies for achieving success in professional life. The event was attended by our MBA Students of third semester.

OBJECTIVE OF THE PROGRAM:

The primary objectives of the motivational talk were:

1. To inspire and motivate participants to pursue their goals and dreams with confidence and determination.
2. To provide practical strategies and tools for achieving success.
3. To encourage personal growth and self-improvement.
4. To foster a positive and proactive mindset among participants.

Program Highlights

The talk was structured into several key sections, each focusing on different aspects of success:

1. **Opening Remarks:** The event began with a brief introduction by the host, who welcomed the audience and introduced the speaker. The host highlighted the importance of motivation and positive thinking in achieving success.
2. **Defining Success:** The speaker began by exploring the concept of success, emphasizing that it is subjective and can mean different things to different people. He encouraged participants to define success in their own terms, aligning it with their values and aspirations.
3. **The Formula for Success:**
 - o **Goal Setting:** The speaker emphasized the importance of setting clear, specific, and achievable goals. He provided practical tips on how to set SMART (Specific, Measurable, Achievable, Relevant, Time-bound) goals and the importance of writing them down.
 - o **Persistence and Resilience:** A significant portion of the talk was dedicated to the importance of persistence and resilience in the face of challenges. The speaker

shared personal anecdotes and examples of successful individuals who overcame obstacles through determination and perseverance.

- **Positive Mindset and Self-Belief:** The speaker highlighted the power of a positive mindset and self-belief. He discussed techniques for building self-confidence and maintaining a positive attitude, even in difficult times. The importance of surrounding oneself with supportive and positive people was also emphasized.
 - **Continuous Learning and Adaptability:** The speaker stressed the importance of continuous learning and staying adaptable in an ever-changing world. He encouraged participants to seek out new knowledge, develop new skills, and embrace change as an opportunity for growth.
4. **Interactive Session:** Following the main talk, an interactive Q&A session was held, allowing participants to ask questions and seek personalized advice. The speaker addressed various topics, including time management, overcoming fear and self-doubt, and balancing work and personal life.
 5. **Practical Exercises:** The event included a few practical exercises designed to help participants reflect on their goals and create action plans. These exercises encouraged attendees to identify their strengths and areas for improvement and to set concrete steps toward achieving their goals.
 6. **Closing Remarks:** The event concluded with closing remarks from the speaker, who reiterated the key points of the talk and encouraged participants to take action. The speaker emphasized that success is a journey, not a destination, and encouraged attendees to enjoy the process.

OUTCOME OF THE PROGRAM:

The motivational talk was well-received, with participants attending actively. Attendees expressed high levels of satisfaction with the content and delivery of the talk, highlighting the speaker's engaging style and practical advice. Many participants reported feeling inspired and motivated to take actionable steps toward their goals.

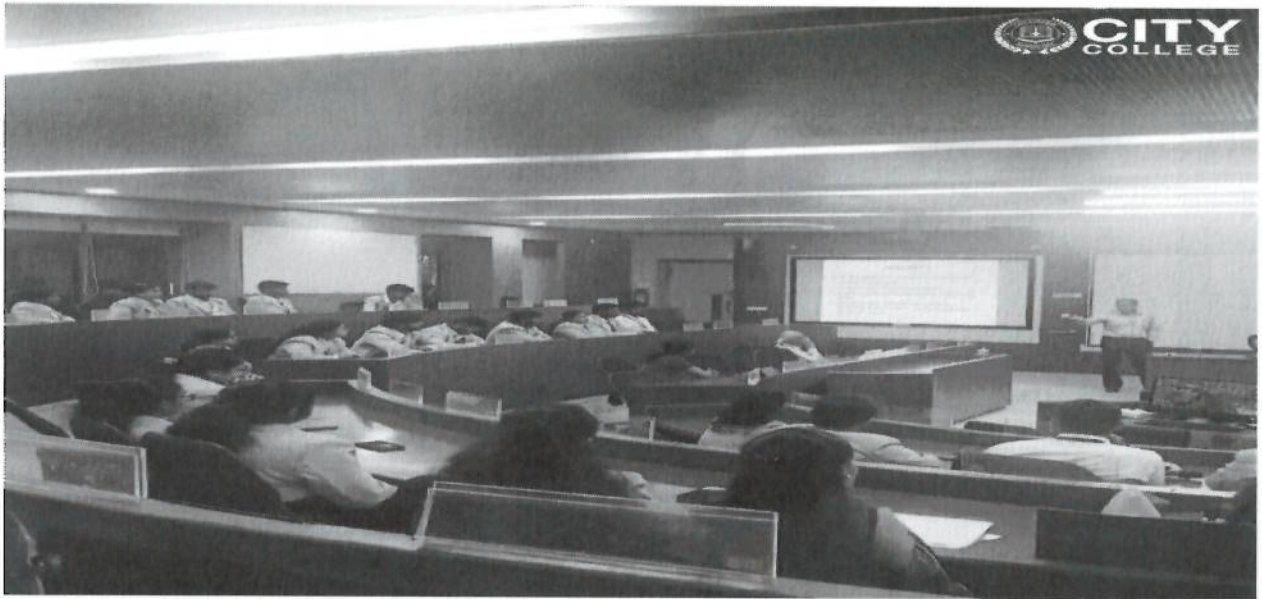

Feedback forms indicated that the sections on goal setting and overcoming challenges were particularly impactful. Participants appreciated the real-life examples and practical tips, finding them applicable to their personal and professional lives.

Conclusion

The motivational talk "Formula for Success" was a valuable and inspiring event that provided participants with practical tools and insights for achieving their goals. By emphasizing the importance of goal setting, resilience, and a positive mindset, the speaker empowered attendees to take charge of their personal and professional growth. Continued efforts to provide motivational and educational events will help nurture a community of proactive and successful individuals.

Introduction

Mr. Dinesh Babu M from Anupama College of Management and Science conducted seminar on "CLOUD COMPUTING" 16.05.2024. A total of 100 students from BCA were attended the program. Mr. Dinesh Babu having 15 years of experience and he is a co-ordinator of BCA department.

Objective of the Event

The primary objectives of cloud computing include increasing efficiency, scalability, and flexibility of IT resources, while reducing costs and complexity. By leveraging cloud services, organizations can access computing resources on-demand, easily scale up or down based on their needs, and benefit from pay-as-you-go pricing models. This enables businesses to focus on their core competencies, innovate more rapidly, and respond quickly to changing market demands without significant upfront investments in hardware and infrastructure. Title: Report on City College's Second Lecture Series on Research Methodology

Date: September 22, 2023

City College organized its second lecture series on Research Methodology, specifically tailored for the faculties, on September 22, 2023. The session was conducted by Dr. Ranganathan, a renowned expert in the field. The lecture covered fundamental aspects of research, including research design, data collection methods, and statistical analysis. Dr. Ranganathan emphasized the importance of robust research methodologies in producing credible and valuable academic work. The participants engaged in interactive discussions, posing questions and seeking clarifications on various research concepts. Dr. Ranganathan skillfully addressed queries, fostering a dynamic and engaging learning environment. The lecture series successfully provided the faculty members with insights into contemporary research practices, enhancing their understanding of methodological frameworks. This knowledge is anticipated to have a positive impact on the quality of research conducted by City College faculty.

Principal
CITY COLLEGE
Jayanagar, Bangalore-70

The College expresses its gratitude to Dr. Ranganathan for his valuable contribution to the professional development of the faculty through this enlightening lecture series. This initiative reflects City College's commitment to fostering a culture of research excellence among its academic community.

well-structured rules and regulations. Securities mentioned here include debenture and share issued by a public company that is correctly listed at the stock exchange, debenture and bonds issued by the government bodies, municipal and public bodies. The following are the purposes of workshop.

1. Master the trading strategies.
2. Know the techniques and intraday stock tips to protect your capital.
3. Know the procedures to earn more while investing lesser capital.
4. Understand risk management and earn more by losing less.
5. Enjoy trading after understanding the techniques.
6. Have enough sources to face the challenges coming your way.
7. Invest as per your capacity and not refrain from exploring diversified stocks in the fear of losing your money.
8. This training will help you become the boss of your independent business.

OBJECTIVES OF THE WORKSHOP:

The objective of the course is to introduce the different facets of actual trading. The students will be taught different types of trading strategies, as well as a concrete build-up of positions. They will become familiar with the notions of Relative Value trading, technical trading, fundamental trading, options trading. During the thirty hours of class, students will develop a concrete knowledge of how markets work. Since a big part of each session will be done in a virtual trading floor, they will practically learn how to trade a few instruments. These sessions will teach them trading reflexes and appropriate reactions to market movements. Another objective is to educate the students to the notion of balance between risk and reward,

to give them a framework that can help them when they decide to do investments (in a professional OR personal way).

to be a trader, a sales, a structurer Identify Risk Management issues related to market positions Become familiar with practical trading techniques Formal training to Bloomberg platform (Bloomberg Market Concepts). Students should be trained in the Bloomberg system, and be able to access information and quotes on basic financial instruments. They should be able to link Excel sheets to Bloomberg quotes.

Implications and Conclusion:

To conclude, study largely suggests rejection of the random walk hypothesis in the Indian stock market. This implies that the Indian equity market is not weak or efficient. The results indicate no significant difference in the behaviour of index returns between the NSE and BSE. Nevertheless, the stock indices having higher liquidity and market capitalization prove to be less inefficient than small indices on both the exchanges.

Furthermore, the small indices with less liquidity appear to be more vulnerable to external shocks. Sector Wise, there has not been much difference. In the light of the present evidence, it is clear that policy reforms aimed at improving the efficiency have not brought the desired results. In view of the above discussion, some policy implications are proposed here. The evidence of the existence of potential excess returns in short horizons of investment calls for policy measures aiming at proper dissemination of information to the participants. **This** has further support from the episodic nonlinear dependence, which suggests that investors take time to respond to the events. Further, to improve the performance of small indices having lesser liquidity, it is important to improve the liquidity of smaller stocks. Encouraging retail trading and promoting the mutual funds in the Indian market may achieve this. RBI's initiative for financial literacy and NSE's certificate courses for financial education are welcoming steps in this direction. External events have always created panic in the Indian stock market.

Implications and Conclusion:

To conclude, Union Budget 2023-24 presents a vision for Amrit Kaal-blueprint for an empowered and Inclusive Economy

- Indian economy is recognised as a **'bright star'** as the Economic Growth is estimated at **7 per cent**, which is the highest among all major economies, in spite of the massive global slowdown caused by COVID-19 and Russia-Ukraine War
- This Budget builds on the foundation laid in the previous Budget, and the blueprint drawn for India@100, which envisions a **prosperous and inclusive India**, where the fruits of development reach all regions and citizens, especially our youth, women, farmers, OBCs, Scheduled Castes and Scheduled Tribes.
- **India's Resilience amidst multiple crises:** Several accomplishments like unique World Class Digital Public Infrastructure namely, Aadhaar, Co-Win and UPI; COVID-19 vaccination drive; proactive role in frontier areas such as achieving the climate related goals, mission LiFE, and National Hydrogen Mission rises the India's profile in the global platform.
- **Food and Nutritional security:** To ensure food and nutritional security, from 1st January 2023, Government is implementing a scheme to supply free food grain to all Antyodaya and priority households for the next one year, under PM Garib Kalyan Anna Yojana (PMGKY)
- **G20 Presidency:** The G20 Presidency gives India a unique opportunity to strengthen its role in the world economic order. With the theme of 'Vasudhaiva Kutumbakam', India is steering an ambitious, people-centric agenda to address global challenges, and to facilitate sustainable economic development.

Achievements since 2014: Leaving no one behind

- Government's efforts since 2014 have ensured for all citizens a better quality of living and a life of dignity
- The per capita income has more than doubled to Rs 1.97 lakh.
- From 2014- 2023, the Indian economy has increased in size from being 10th to 5th largest in the world.
- The economy has become a lot more formalised as reflected in the EPFO membership
- Efficient implementation of many schemes such as Swachh Bharat Mission, LPG connections under Ujjawala, PM Jan Dhan Bank Accounts, etc, with universalization of targeted benefits, has resulted in inclusive development.

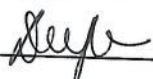

Opportunities that are transformative during Amrit kaal are

1. **Economic Empowerment of Women:** Deendayal Antyodaya Yojana National Rural Livelihood Mission has achieved remarkable success by mobilizing rural women into 81 lakh Self Help Groups and will enable these groups to reach the next stage of economic empowerment through formation of large producer enterprises or collectives with each having several thousand members and managed professionally.
2. **PM Vishwakarma KAushal Samman (PM VIKAS):** For centuries, traditional artisans and craftspeople, who work with their hands using tools, have brought renown for India and they are generally referred to as Vishwakarma. The art and handicraft created by them represents the true spirit of Atma Nirbhar Bharat. These new schemes will enable them to improve the quality, scale and reach of their products, integrating them with the MSME value chain.
3. **Tourism:** The country offers immense attraction for domestic as well as foreign tourists, as there is a large potential to be tapped in tourism. This sector holds huge opportunities for jobs and entrepreneurship for youth in particular and emphasises

Principal
CITY COLLEGE
Jayanagar, Bangalore - 70

that promotion of tourism will be taken up on mission mode, with active participation of states, convergence of government programmes and public-private partnerships.

4. **Green Growth:** Dwelling on the subject of Green Growth, the FM said that India is implementing many programmes for green fuel, green energy, green farming, green mobility, green buildings, and green equipment, and policies for efficient use of energy across various economic sectors. These green growth efforts help in reducing carbon intensity of the economy and provides for large scale green job opportunities,

CYBER SECURITY AND ETHICAL HACKING

Event name	Workshop on Bug Bunty
Conducted on	18/05/2024
Venue	No. 88, 5 th Block, Koramangala Industrial Layout Bangalore-560095
Resource Person	Rohith N

Introduction - Speaker

Rohith N, a certified ethical hacker, hails from Kochi, Kerala. Working as a Ethical Hacker from TECHBYHEART, travelled extensively to give awareness and technical information in many educational Institutions. He has delivered many guest Lectures to faculties and students about Cyber Security.

Objective of the Event

In today's digital world, cybersecurity has become a critical concern for individuals, businesses, and government. The ever-increasing reliance on digital technology has made us vulnerable to cyber threats and attacks. However, by understanding the objectives of cyber security, we can take assertive measures to protect ourselves and ensure a secure digital environment.

A bug is an unexpected problem with software or hardware. The workshop is about identifying discovering and reporting a bug to the application developer.

Bug Bunty is a cybersecurity method that empowers organizations to minimize their threat exposure by learning on the expertise of a community of ethical hackers.

Objective of the event:

Increase student engagement and enjoyment. Improve student knowledge retention, decision making and teamwork skills

- Give you the ability to better illustrate theoretical business concepts
- Increase student engagement and enjoyment
- Improve student knowledge retention, decision making and teamwork skills
- Allow you to run all of your simulation based courses online in any format (classroom, blended, online)
- Give you a powerful tool to test the hands on skills and strategic thinking of students

Workshop Training Activities:

- 1. Hands-on learning business :**simulations provide an interactive and dynamic learning environment. It allows students to draw on what they've learned during the course and test their mettle against their peers regardless of time and location.
- 2. Risk-free experimentation:**Making mistakes is an integral part of learning a new skill, and this is as true in business as it is in any other domain. Business management simulations let learners experiment freely with novel strategies without any real world repercussions.

CITY COLLEGE
Jayanagar, Bangalore - 70

3. Competition: Competition is at the heart of every business simulation, not only because it helps simulate a real world market situation, but also because the dynamic nature of friendly rivalry and teamwork can create a highly engaging learning environment.

4. Discipline specific: A business simulation game wouldn't be of much use if it weren't also relatable to the subject matter of the course. This is why a good business simulation will deal with discipline specific decisions in a controlled scenario

5. Completely online: Students already do everything online, it is time their learning materials followed suit. Modern business simulation games are entirely web-based and make it easy for both students and teachers to access from anywhere in the world.

Conclusion:

In workshop speaker created artificial Business Environment and trained Business skills and entrepreneurial skills to students. Start up and run a new venture. Trained to Develop a new market and compete to become market leader. Pitch a plan to outside investors to secure additional funding. Pivot your strategy in response to rapidly changing market conditions.

Business Opportunity : Identify business opportunities and formulate a strategy to profitably serve the targeted market segments through interconnected tactical decisions.

OBJECTIVES OF THE WORKSHOP:

The objective of the course is to introduce the different facets of actual trading. The students will be taught different types of trading strategies, as well as a concrete build-up of positions. They will become familiar with the notions of Relative Value trading, technical trading, fundamental trading, options trading. During the thirty hours of class, students will develop a concrete knowledge of how markets work. Since a big part of each session will be done in a virtual trading floor, they will practically learn how to trade a few instruments. These sessions will teach them trading reflexes and appropriate reactions to market movements. Another objective is to educate the students to the notion of balance between risk and reward,

Principal

Implications and Conclusion:

To conclude, study largely suggests rejection of the random walk hypothesis in the Indian stock market. This implies that the Indian equity market is not weak or efficient. The results indicate no significant difference in the behaviour of index returns between the NSE and BSE. Nevertheless, the stock indices having higher liquidity and market capitalization prove to be less inefficient than small indices on both the exchanges.

Furthermore, the small indices with less liquidity appear to be more vulnerable to external shocks. Sector Wise, there has not been much difference. In the light of the present evidence, it is clear that policy reforms aimed at improving the efficiency have not brought the desired results. In view of the above discussion, some policy implications are proposed here. The evidence of the existence of potential excess returns in short horizons of investment calls for policy measures aiming at proper dissemination of information to the participants.

This has further support from the episodic nonlinear dependence, which suggests that investors take time to respond to the events. Further, to improve the performance of small indices having lesser liquidity, it is important to improve the liquidity of smaller stocks.

Principal
CITY COLLEGE
Jayanagar, Bangalore - 70

Encouraging retail trading and promoting the mutual funds in the Indian market may achieve this. RBI's initiative for financial literacy and NSE's certificate courses for financial education are welcoming steps in this direction. External events have always created panic in the Indian stock market.

Whenever there were some shocks, there was net outflow of FIIs. In the light of this, policy measures aiming at an appropriate management of the external sector and global events need to be initiated in order to improve the immunity of stock market towards ill effects of global shocks. There is also a need for optimal regulation of FIIs and pressing for further disclosures from the FIIs. In light of the current empirical evidence, before hastening for the third generation reforms, a pause for a holistic review of financial sector reforms is important at this crucial juncture. The limitations of the study highlight scope for further research. The study indicated stronger rejection of market efficiency and vulnerability of the Indian stock market to external shocks. The interaction between market microstructure variables and market efficiency indicators may throw further light. A further investigation of sources of long memory and a causal analysis of inefficiencies would provide useful information for policy measures.

WORKSHOP ON Artificial Intelligence

Event name	WORKSHOP ON Artificial intelligence
Conducted on	5/10/2022 to 6/10/2022
Venue	Class Room
Resource Person	Lohitha

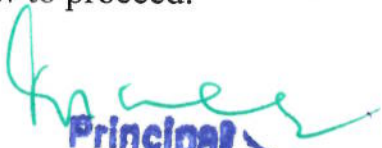

Introduction

Mrs. Lohitha, CEO of Glovish Technology hails from Bangalore. He has profound knowledge in the field of Artificial Intelligence. Have good academic records and a member of many Technical Associations. Good orator, has pleasing personality

Objective of the Event

The primary objective of Artificial Intelligence is to develop the problem solving ability; incorporate knowledge representation a machine can be developed with artificial intelligence by reverse engineering human abilities and traits. Artificial intelligence is a technology that enables computers to function independently but intelligently by reading human behavior. It is designed to create intelligent machines.

By using predictive analytics, data analysis, forecasting, and optimization models, intelligent agents enable us to project the future and decide how to proceed.

Principal
CITY COLLEGE
Bangalore 56

In robotics, autonomous systems, cognitive assistants, and cyber security, AI can assist us in making future predictions and determining the consequences of our actions Services.

In AI, one of the key goals is to develop a synergistic relationship between humans and AI. This complements each other's capabilities instead of relying on just one source of information.

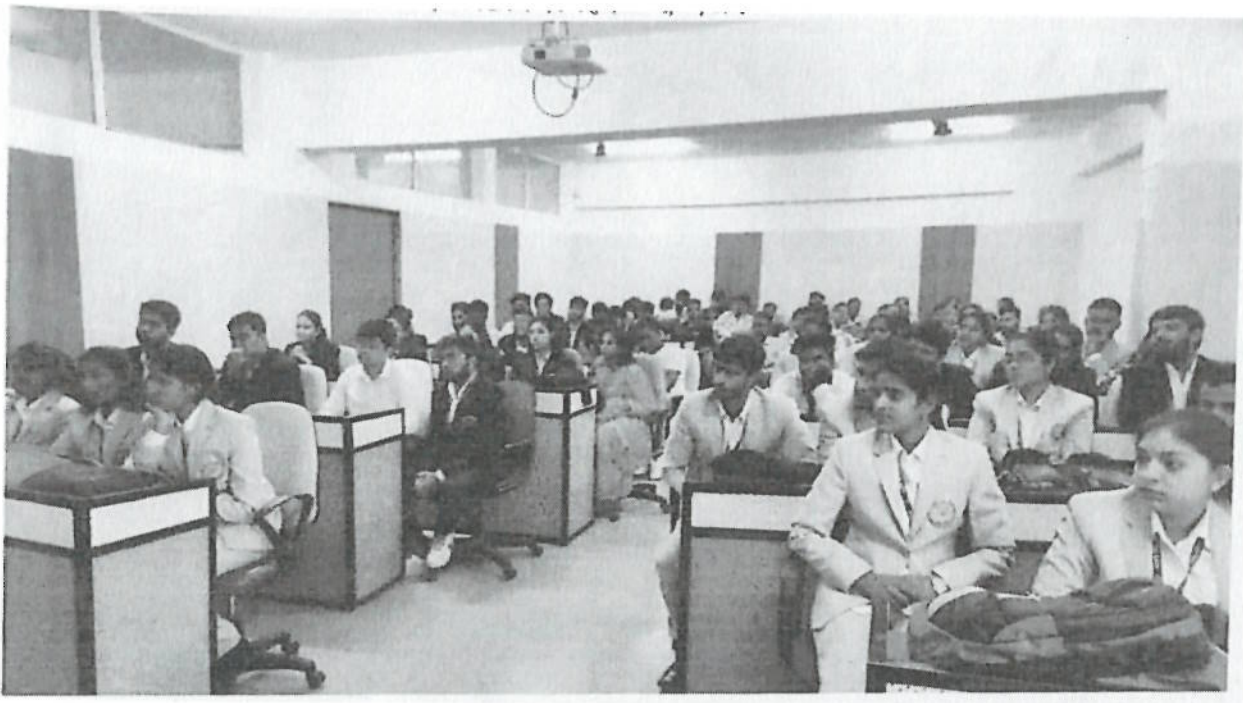

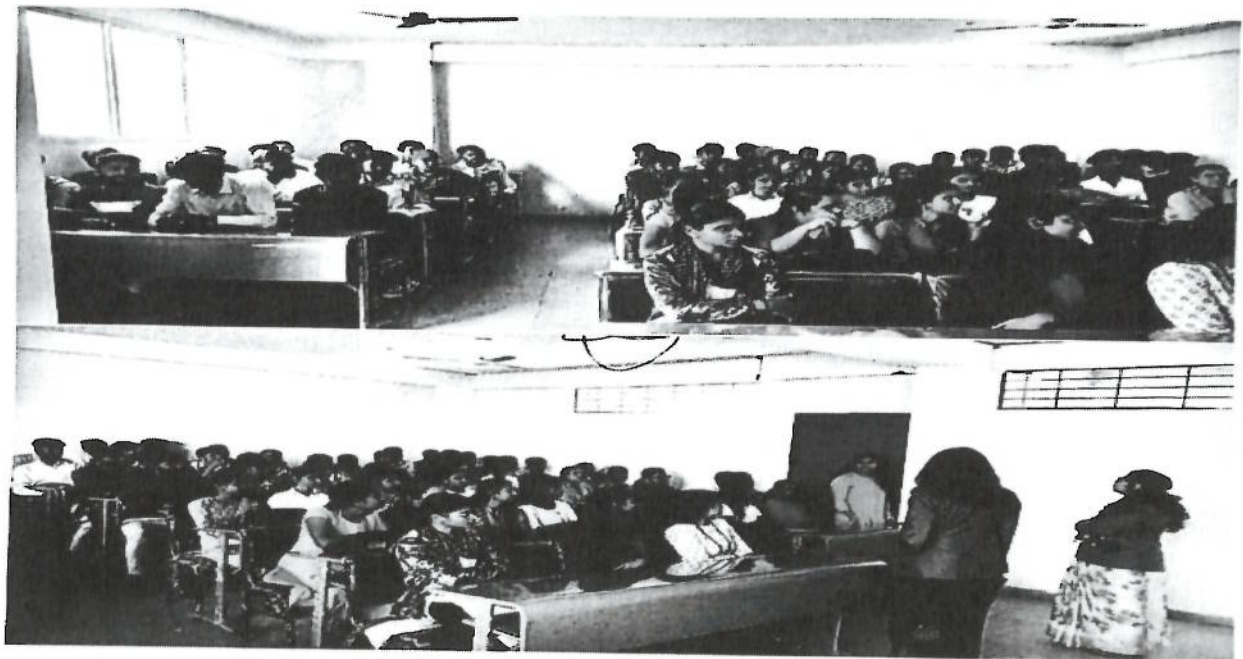

The audience for the in-house workshop was selected from BCA.

Outcome of the Event

- Design user interfaces to improve human–AI interaction and real-time decision-making.
- Evaluate the advantages, disadvantages, challenges, and ramifications of human–AI augmentation.
- Design and develop symbiotic human–AI systems that balance the information processing power of computational systems with human intelligence and decision making.
- Explain the benefits, limitations, and tradeoffs of designing engaging and ethical conversational user interactions, including those supported by chat bots, smart speakers, and other AI-driven, voice-based technologies.
- Design and evaluate conversational interfaces for different users and contexts of use.
- Students will apply data science concepts and methods to solve problems in real-world contexts and will communicate these solutions effectively

Entrepreneur Skills and Opportunities

Helps to effectively communicate, sell, focus, learn, and strategize. An ability to continuously learn is not just a key entrepreneurial skill, but also a very valuable life skill. Growing a business requires a sound strategy based on inherent business sense and skills. Entrepreneurs play a key role in any economy, using the skills and initiative necessary to anticipate needs and bringing good new ideas to market. Entrepreneurship that proves to be successful in taking on the risks of creating a starts-up is rewarded with profits, fame, and continued growth opportunities. Entrepreneurship that fails results in losses and less prevalence in the markets for those involved.

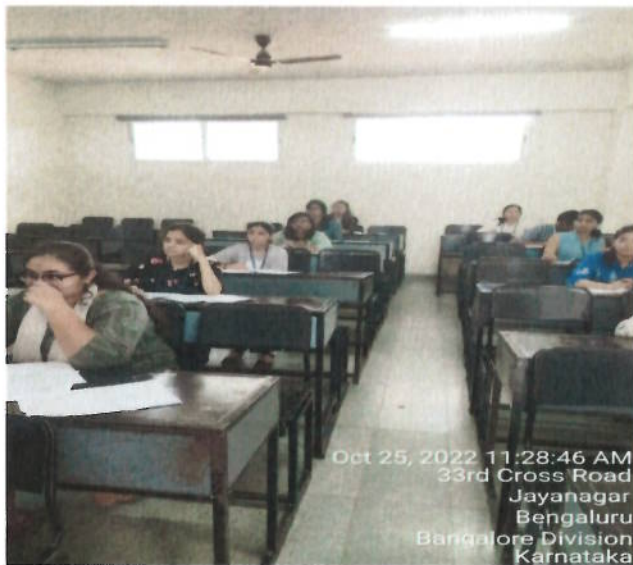

Objectives

- Identification of opportunities by an entrepreneur, in the context of probable industries and to decide his own role, the scope of work and relationships, in accordance with the opportunities.
- To keep watch over the possible market of the commodity or service to be produced.
- To decide a high-level group of managers, so that entrepreneurial venture may be started. To make an assessment of financial resources by making financial forecasts, in the context of the process of industrial development.
- To explore the opportunities for possible entry in other areas.
- To assess the requirements of labour, capital, and materials for the industries.
- To find out the possibilities of short term and long term development in various areas of the economy.
- To have the desire for technical knowledge, awareness towards new opportunities and acceptance of the changes.
- To see the possibilities of diverting the available resources towards achieving the business objectives.
- To identify those industries, which are not based on local sources, but which may be economically considered, in view of future requirements.

Conclusion:

To summarize the session speakers taught through their empirical research and related literature knowledge. Our purpose was to summarize the starting points for a major new effort to better understand the links between leadership and student learning. This session helped in building leadership qualities and critical bridges between most educational reform initiatives and their consequences for students. Of all the factors that contribute to what students learn in this session, present evidence led us to the conclusion that leadership is second in strength only to classroom instruction. Furthermore, effective leadership has the greatest impact in real life circumstances in which it is most needed. This evidence supports the present widespread interest in improving leadership as a key to the successful implementation of large-scale reforms.

WORKSHOP ON ENHANCING CREATIVITY IN STUDENTS

FOR UG STUDENTS

Date:19/7/2022

VENUE:EXAMINATION ROOM

Objectives:

- **Skills development:**When students use their fingers to manipulate art materials they are developing their drive skills for innovation as they use those small muscles in their hands. Their bilateral coordination skills improve as they learn to use both hands at the same time.
- **Creativity :**which is important throughout their lives. By doing something creative, you allow for self-expression and express their feelings through creativity . It also fosters mental growth in students by providing opportunities for trying out new ideas, new ways of thinking and problem-solving.
- **Build self confidence:**Art and craft activities give kids a sense of achievement and allow them to take pride in their work which builds self confidence.
- **Reasoning:**Basic math skills are often not thought of as being part of art and crafts activities,but math skills are used for creation craft piece.

A total of 105 participants participated in the webinar. Due to limitation of the platform used, many participants were unable to participate.

Objective

The webinar was organized with the objective to:

- ❖ Acquaint the participants with the prevailing cyber security threats.
- ❖ Educate the participants about the safety and security measures to adopt while using the internet and various applications.

The Speaker

Mr. Raksit Tandon has done a Master's in Computer Science. is an ethical hacker, and a certified Computer Forensics Expert from Brain bench USA. He has spent two decades in the field of cyber security. Mr. Tandon is an Advisor- Cyber Crime Unit, Uttar Pradesh Police and Haryana Police.

Summary of the Webinar

The session named "Cyber Surakshit", began with discussion about the latest cybercrimes being committed around the country. The second half of the session revolved around the precautions that must be taken during online payments and password protection. He suggested using 2-Factor authentication while using apps.

In these times of Covid-19 and the subsequent lockdown, the speaker advocated doing information distancing and being a digital cough.

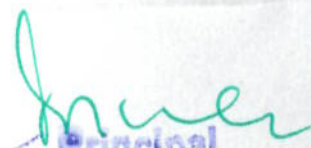

The participants were able to get an insight into the digital area and what precautions are necessary.

The webinar concluded with a questions and answer session. Mr Rakshit Tandon satisfactorily answered all questions related to cyber security

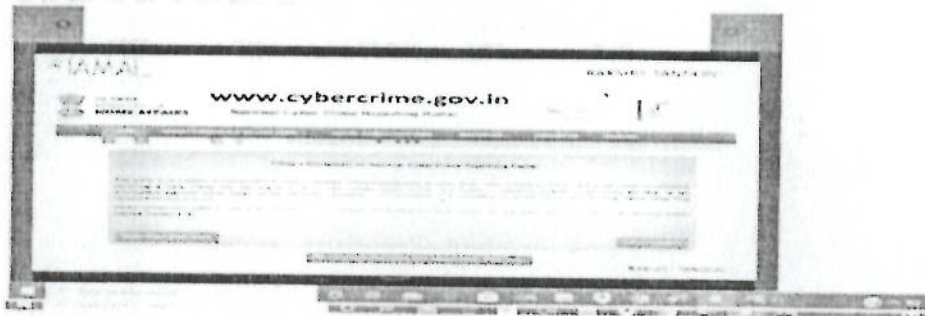

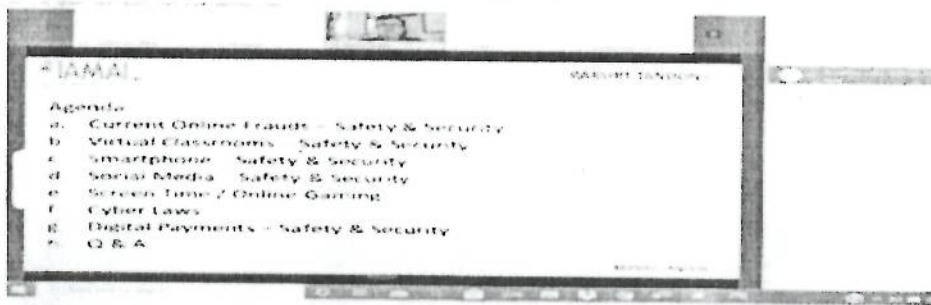

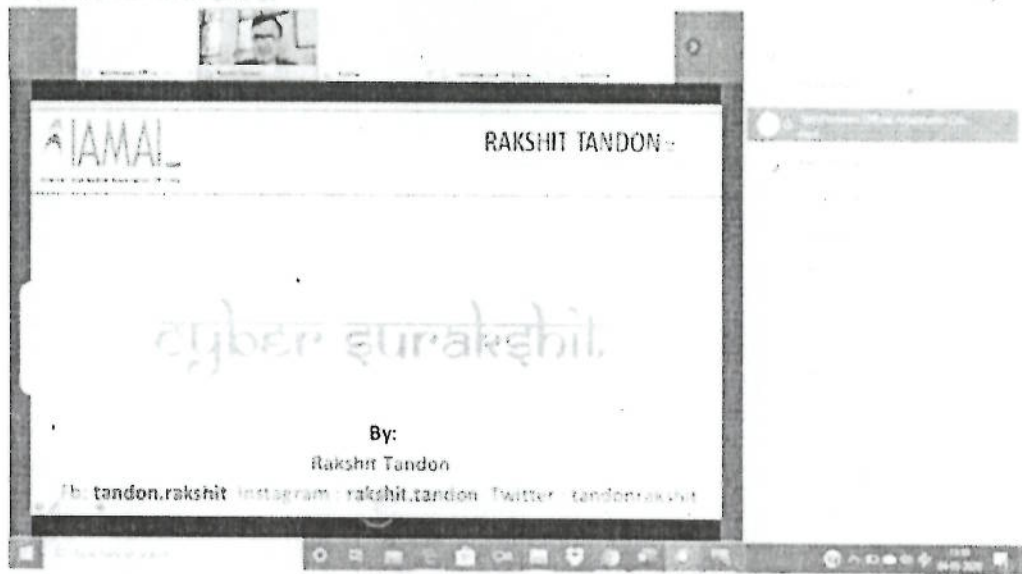

Some questions asked were:

- ❖ "How to check that ATM machine we are using is free from any theft activity? "
- ❖ "I have heard that zoom app is not safe for online classes so how can we know about which app is safe and etc. "
- ❖ How can we keep our Smartphone safe from threats n viruses?
- ❖ Is SSL Safe?

It was an informative seminar, which was truly appreciated by participants. We look forward to organizing a workshop, conducted by Mr Rakshit Tandon, in the near future.
