Report on NAAC Accreditation Process Special Lecture at City College Jayanagar

City College Jayanagar organized a special lecture on the NAAC Accreditation Process in the college seminar hall on Saturday, November 11, 2023. The distinguished resource person for the lecture was Dr. L. Manjunatha Rao, the Deputy Advisor of NAAC. The lecture aimed to provide valuable insights into the accreditation process, covering its qualitative and quantitative metrics and key indicators.

Dr. Rao meticulously explained each NAAC criterion, emphasizing the importance of adherence to these standards for institutional excellence. The seven criteria discussed were as follows:

Curricular Aspects: Addressing the structure and design of academic programs.

Teaching, Learning, and Evaluation: Focusing on the effectiveness of educational processes.

Research, Innovation, and Extensions: Evaluating contributions to knowledge creation and dissemination.

Infrastructure and Learning Resources: Assessing the adequacy of physical and academic resources.

Student Support and Progression: Ensuring student welfare and academic progression.

Governance, Leadership, and Management: Emphasizing effective administration and leadership.

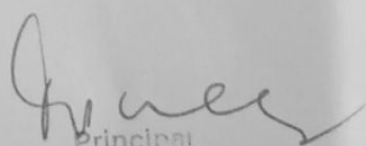

Institutional Values & Best Practices: Promoting ethical practices and institutional values.

The audience included Dr. Puttaraj, the college principal, Dr. Ranganathan, the Dean of the college, and all faculty members from undergraduate, postgraduate, and pre-university courses. The lecture proved to be highly insightful, providing a comprehensive understanding of the NAAC Accreditation Process.

The faculty found the lecture enlightening, as it not only clarified doubts but also highlighted the significance of meeting NAAC standards for the college's overall development. Dr. Manjunatha Rao's expertise and detailed explanation contributed to a successful and informative session.

In conclusion, the special lecture on the NAAC Accreditation Process at City College Jayanagar was a significant event, fostering a deeper understanding of the accreditation criteria among faculty members and reinforcing the commitment to maintaining high educational standards.

Dr. Prakash Duvvuri Delivers Insightful Lecture on Accreditation & Implementation Process!

In an electrifying event at our college campus on 26th July 2023, renowned academician and expert, Dr. Prakash Duvvuri, M.Sc., Ph.D., (Life Sci - Plant Biotech), EPDT (IIMI), captivated the audience with his enlightening lecture on "General Guidelines of Accreditation & Understanding the Process of Accreditation and Implementation."

The lecture, held in the seminar hall in the esteemed presence of Vice President and Director as well as the Vice Principal of the college attracted a diverse crowd of faculty members, and administrative staff. Dr. Duvvuri, an esteemed figure in the field of accreditation and education, brought his wealth of knowledge and experience to shed light on the vital aspects of accreditation.

NAAC - Seven Criteria for Quality Assessment: The lecture began by introducing the audience to the seven criteria outlined by the National Assessment and Accreditation Council (NAAC) for assessing the quality of Higher Education Institutions (HEIs). These criteria serve as the foundation for evaluating institutional functioning and include:

Curricular Aspects

Teaching-Learning and Evaluation

Research, Innovations, and Extension

Infrastructure and Learning Resources

Student Support and Progression

Governance, Leadership, and Management

Institutional Values and Best Practices

Addressing the significance of accreditation in the academic world, Dr. Duvvuri emphasized its role in maintaining quality standards and fostering continuous improvement in educational

institutions. He elucidated the various steps involved in the accreditation process, providing valuable insights into how institutions can effectively implement the guidelines to attain accreditation.

NAAC - Criteria-wise Allotment of Marks: Dr. Prakash Duvvuri proceeded to elaborate on the allocation of marks for each criterion. The NAAC has assigned different weightages to each criterion to assess the HEIs comprehensively.

Internal Quality Assurance Cell (IQAC): To ensure a quality-centric environment in HEIs, the establishment of an Internal Quality Assurance Cell (IQAC) is of utmost importance. Dr. Prakash Duvvuri stressed the significance of institutionalizing and internalizing initiatives to maintain a quality culture within the institution.

Throughout the lecture, Dr. Duvvuri engaged the audience with real-life examples and case studies, making the complex subject matter easily understandable for everyone present. His expertise and extensive academic background further enriched the lecture, bringing a unique perspective to the discussion.

Attendees left the event inspired and well-informed, equipped with the necessary knowledge to propel our college towards successful accreditation. The event's success reflects the college's commitment to providing its students and faculty with access to distinguished experts like Dr. Prakash Duvvuri.

The lecture by Dr. Prakash Duvvuri provided valuable insights into the accreditation process and the role of IQAC in ensuring institutional excellence. As a college, we are committed to upholding the NAAC criteria and establishing a robust IQAC to foster a culture of continuous improvement and excellence in all aspects of our institution. Stay tuned for more updates on our progress and initiatives in the journey towards accreditation and academic advancement.

CITY COLLEGE

AFFILIATED TO BANGALORE UNIVERSITY, APPROVED BY AICTE, NEW DELHI

7th May, 2023

NOTICE

This is to inform all the members of Governing Council of City College that a meeting is scheduled for 20th May, 2023 at 12:30 pm in the Board Room, City College, # 27/2, 7th Block, Jayanagar, Bangalore-560070.

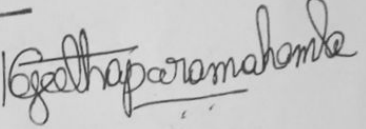

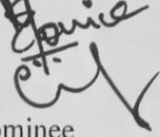

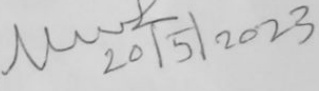

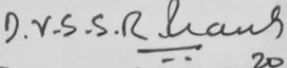

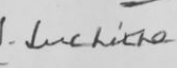

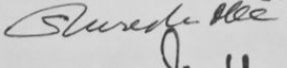

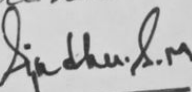

The Agenda for the meeting is given in second part of this letter. You are requested to make it convenient to attend and provide us with your valuable advice and guidance.

Yours faithfully,

Principal & Member Secretary
CITY COLLEGE

Jayanagar, Bangalore - 70.

Members of Governing Council:

1. Dr. K.R. Paramahansa – President - JES 
2. Mrs. K. Geetha Paramahansa – Vice Chairperson, JES 
3. Ms. Monica Kalluri – Vice President, JES 
4. Dr. Veena Angadi – Principal, City College 
5. Dr. Shaik Masthan, Dept of History – BU Nominee 
6. Dr. D.V.S.S.R. Prakash, Member, 
7. Dr. G. Sreelatha, Professor, Dept of Commerce & Mgmt. 
8. Dr. Suchitha S, HOD, Dept of Computer Application 
9. Mr.M.K.Suresh, Member, JES 
10. Mrs. Sindhu Gurunath, Staff Representative 
11. Ms. Niveditha K, Staff Representative 

Agenda:

1. Welcoming all the members and the GC member newly appointed governing council
Dr. Shaik Masthan
2. Briefing of previous GC meeting
3. Discussion on NOC from University
4. Research activities by faculties
5. Briefing of activities pertaining to curricular & Co-Curricular activities
6. Updations on library details
7. Briefing on Upcoming planned activities

Minutes on meeting

Proceedings of the meeting held on 20.05.2023 at 12.30PM

The meeting commenced at 12.30 P.M in the board room of City College.

Agenda

- 1.0 Welcoming all the members and the GC member, newly appointed Governing Council Dr. Shaik Masthan
- 1.1 Briefing of Previous GC meeting
- 1.2 Discussion on NOC from the University
- 1.3 Research Activities by Faculties
- 1.4 Briefing of activities pertaining to curricular & Co- Curricular Activities
- 1.5 Updates on Library details
- 1.6 Briefing on Upcoming planned activities

1.0 Welcoming all the members & the GC member, newly appointed Governing Council Dr. Shaik Masthan

The meeting started with Principal Dr. Veena Angadi welcoming all the Management and the board members. The Principal welcomed on behalf of City College, the newly appointed Governing Council Dr. Shaik Masthan Sir. Further it was followed by the Presentation by the Principal, about the college, its executive board members, and the vision and mission policies of the college, about courses provided by college: BBM, BCOM, MBA, BCA and MCA. The admissions and other details for the academic year are as follows:

Courses Offered:

Sl No	Courses	Duration
Department of Commerce and Management		
1.	B.Com (Specialisation-Accounting&Taxation/Finance/IT/Banking&Insurance)	3 Years
2.	B.B.A (Specialisation – Finance/Marketing/HR)	3 Years
3.	M.B.A (Specialisation – Finance/Marketing/HR/Business Analytics)	3 Years
Department of Computer Applications		
1.	BCA	3 Years
2.	Proposed MCA New courses 2023	2 Years
3.	M.Sc. computers	2 Years

Admissions:

Courses	Sanctioned Intake	2020-2021	2021-2022	2022-2023	Total
B.COM	160	39	10	30	79
B.B.A	120	13	13	44	70
B.C.A	120	26	15	116	157
M.B.A	216	-	139	216	355
M.Sc. Computers 2022	30				
M.C.A next academic year 2023	120				
Total		78	187	406	661

Infrastructure:

Sl No.	Details	Number
1.	Classrooms	30
2.	Auditorium	01
3.	Seminar Hall	02
4.	Library	01
5.	Computer Lab	05 (120 computers)
6.	Canteen	Is in process
7.	Wendi machine for students	3

Faculty and Staff Details

Departments	Total	Ph.D	M.Phil/NET/KSET
Commerce and Management	31	04	03
Computer Applications	07	01	00
Languages	04	3	02
Librarian	01		01
Non-Teaching Staff	19		

Result Analysis

Courses	2020-2023 (V Sem) 19Batch	2021-2024 (III Sem) 20Batch	2022-2025 (I Sem) 21Batch
B.COM	Awaiting	Awaiting	Awaiting
B.B.A	Awaiting	Awaiting	Awaiting
B.C.A	Awaiting	Awaiting	Awaiting
M.B.A		2021-2023 98% (2 nd Sem)	

There is increase in books intake. Due to last compliance report the college has subscribed more books.

Library Details

The college also has E-library facility like

- Amazon Kindle
- Registration with NDLI
- Registration with British Council Digital Library
- Registration with Library Information Network –N-List (INFLIBNET)

1.6 Briefing on Upcoming planned activities

- Cultural Activity – Ethnic Day
- ENIAC Cell – Group discussion for BCA students
- Seminar on connection of computers to constitution

- Workshop on research work and plagiarism checking on 22nd May 2023
- Workshop on career orientation for Commerce & Management Students on 24th May 2023
- Activities on 0 & 1 games 27th May 2023
- Inter college Fest on 1st & 2nd June 2023
- An Activity on network & Ice breaker on 9/06/2023
- Language Activity – Kannada – Sahityayekedabeku on 10th June 2023
- Language Activity – Hindi – Kavya Sammelan on 10th June 2023
- Seminar on Network security for BCA students on 14th June 2023
- Business Mela – Entrepreneurship Day for Commerce & management students on 17th June 2023
- Yoga Day Celebration – 21st June 2023
- Accounting Workshop for Commerce & Management students on 22nd June 2023
- Sonnet Cell – Poet's Corner – Poetry competition on 30th June 2023
- Organizational Business Activity for commerce & Management Cell for BCOM & BBA students on 30th June 2023
- Entrepreneurship Development Process on 1st July 2023
- Value added program on Data analytics using Python 5th July 2023
- Impact of GST on Economy by commerce & Management Cell on 6th July 2023

Advice from the BU Nominee Dr. Shaikh Masthan:

- Sir has suggested creating a City College Brand by working out the techniques to create a brand, put a sign board about the college within 10 Km radius. The college can make MOU's with Traffic Police/ BBMP for the advertisements.
- Sir advised to showcase CCJ with the simplified Vision and Mission statements
- He suggested that we should club Animation courses with MCA/MBA. He recommended that the college should have an MOU with Zee University, Dehradun for the types of courses offered in Animation
- Sir suggested we should connect with SC/ST cell Officer in Bangalore University for more books for SC/ST
- Sir has recommended to interact with BU for free Open Portal related to magazines so the students can utilise it
- Sir expressed to go through Shodhaganga UGC Portal which provides a platform for research related works
- Sir emphasized on enhancement of Salaries to staff.

- He recommended us to connect with HRD centre in Mangalore and develop a Rapport so that they will conduct programs for employees twice a year with the applicable charges
- Sir suggested that we should connect with Bharthiya Vidya Bhavan to inculcate culture, values and character building in students and faculties
- Sir advised that the college should indulge in more CSR activities
- Sir suggested we should invite luminaries like VC, Registrars for college programs and build a rapport with them
- Sir proposed that we should also have a good Rapport with AICTE, Higher education department directors, secretary, personal secretary, Commissioners, Statutory officers etc.

Suggestions were rightly answered by the Management

- The Vice President, Ms. Monica Kalluri articulated that the management now focuses on Research related articles from the faculties in City College
- Madam voiced that the management is already into CSR activities, focuses on different skilled programs for students and wherever possible efforts will be enhanced
- The management thanked the BU Nominee Dr. Shaikh Masthan sir for giving valuable suggestions

The BU member appreciated the work done by the college when compared to previous year LIC compliance report.

The meeting concluded and the Principal thanked the BU Nominee Dr. Shaikh Masthan sir, the Chair and all the members

No. 27/2, 33rd Cross, 2nd Main Rd, 7th Block,

Karnataka 560070

**ACADEMIC AND ADMINISTRATIVE
AUDIT REPORT
2022-2023**

ACADEMIC AND ADMINISTRATIVE AUDIT (AAA)

An introductory note about AAA

The National Assessment and Accreditation Council (NAAC) has developed guidelines and tools for enhancing the quality of Higher Education Institutions (HEIs) at different levels and for ensuring their sustainability. To continuously strive for excellence, HEIs can establish an Internal Quality Assurance Cell (IQAC) and undergo an External Quality Assurance process. A well-structured system of internal and external reviews is necessary for monitoring and evaluating institutional processes. The NAAC requires accredited HEIs to conduct Academic and Administrative Audits (AAA) on a continuous basis. This advisory note is intended for all accredited HEIs that voluntarily seek to undertake AAA.

Preface

The Academic Audit is a peer review process that includes a self-study and an external review by peer members from outside the institution, similar to more conventional program reviews. However, unlike traditional program evaluation approaches, this process places a greater emphasis on self-reflection and self-improvement rather than compliance with predetermined standards. The main objective of an academic audit is to provide departments or programs with an opportunity to evaluate their "educational quality processes," which are the key faculty activities required to produce, ensure, and continuously improve the quality of teaching and learning. Through the audit process, faculty are encouraged to reflect on their approaches to educational decision-making, how they organize their work, how they use available resources, and how they work together to provide quality education that benefits both the discipline and student learning.

About AAA Audit

The Academic and Administrative Audit (AAA) is crucial for achieving excellence in Higher Education. These concepts are interdependent, as a strong administrative background is necessary to support a quality-oriented academic environment. Effective administration helps create an environment that promotes teaching and learning, research, innovation, and service to the community. An administrative audit ensures that the institution's policies, procedures, and practices are aligned with its mission and goals, and that the administrative support provided is adequate to meet the academic objectives. The academic audit focuses on evaluating the quality of the educational programs, teaching and learning methods, and research and innovation activities. The combination of academic and administrative audits

helps to identify areas for improvement and enhance the overall quality of Higher Education Institutions (HEIs).

Academic Audit:

The Academic Audit is a systematic and scientific method for assessing the quality of academic processes in Higher Education Institutions (HEIs). Its main objective is to ensure quality assurance and improvement in academic activities.

Administrative Audit:

The Administrative Audit evaluates the efficiency and effectiveness of administrative procedures, including policies, strategies, and functions of various administrative departments.

The main objectives of the audit are to:

- Assess the strengths and weaknesses of departments and administrative units,
- Suggest methods for improvement,
- Identify bottlenecks in existing administrative mechanisms,
- Recognize opportunities for academic, administrative, and examination reforms,
- Evaluate the optimal utilization of financial and other resources.

Additionally, the audit aims to suggest methods for continuous improvement of quality in line with the criteria and reports by the National Assessment and Accreditation Council (NAAC) and other bodies as follows:

Curricular aspects,

- Teaching and learning processes,
- Examination and evaluation methods,
- Research, innovation, and extension,
- Infrastructure and learning resources,
- Student support and progression,
- Unique best practices,
- Distinctive practices of the college.

During the audit process, a proforma structured by the Internal Quality Assurance Cell (IQAC) is strictly adhered to for evaluation. The proforma covers nine key areas related to academic and administrative processes in HEIs. These areas include:

1. Course content - evaluation of the relevance and quality of the course content offered by the institution.
2. Teaching-Learning Process - assessment of the teaching methodologies used by faculty members, including the use of technology and innovation in teaching.
3. Results - analysis of the academic performance of students in the institution.
4. Feedback system - review of the feedback mechanism used by the institution to obtain feedback from students and other stakeholders.
5. Research - evaluation of the research activities and publications by faculty members and students.
6. Infrastructure - assessment of the adequacy and quality of physical infrastructure, including classrooms, laboratories, and library facilities.
7. Department Administration - review of the administrative processes and procedures in place in each department.
8. Other academic-oriented activities - assessment of extracurricular and co-curricular activities offered by the institution to enhance the overall development of students.
9. Part-V activities - evaluation of the institution's efforts towards social responsibility, community engagement, and environmental sustainability.

By conducting the audit process based on these nine key areas, the institution can identify its strengths and weaknesses in academic and administrative processes and take corrective actions to enhance the overall quality of education and services provided to students and stakeholders.

Internal Audit Committee Members		
Sl. No	Name	Designation
1	Dr. Puttaraj P Principal	Chairperson
2	Dr. Sanganagouda S Assistant Professor	Coordinator
3	Mr. Chethan V K Assistant Professor	Member
4	Mrs. Deepashree Assistant Professor	Member
5	Dr. Shaik Imran Assistant Professor	Member

External Audit Committee Members		
Sl. No	Name	Designation
1	Dr. Prakash D V Formar Principal, City College, Jayanagar	External Expert
2	Dr. Sowmya Nayak PT Professor & HoD C.S, City Engineering College	External Expert

Schedule of the Academic Audit: Date - 29th June, 2023

Name of the External Auditor: Dr. Prakash D. V.

Following departments were visited by the external members.

Committee Observations:

In the academic year of 2022-2023, the college formed an Academic and Administrative Audit Committee comprising the Principal, two external members, the IQAC Coordinator, and all Heads of Departments. This committee conducted a comprehensive audit of all departments, the library, computer laboratories, administrative office, and other offices of the college. During the audit, faculty members presented their department's performance, and the AAA Committee interacted with them to evaluate the academic and administrative performance.

Summary of Report:

- Uniform for students in some courses is a good practice.
- Wi-Fi bandwidth is good.
- Placement activities and placement-related training are good.
- The admission process is well maintained.
- Academic management is focused on achieving the learning outcomes.
- The curricular and co-curricular activities are well balanced in the teaching-learning environment to provide holistic education to the students.
- Equity of access is ensured in admissions.

Suggestions:

- Departmental objectives should be maintained in one standard format.
- Student monitoring records should be standardized and maintained in the same format by all departments.
- Faculty should use statistical tools for analysis in their respective subjects.

Recommendations:

- Remedial classes should be improved.
- The mentor-mentee system should be streamlined.
- Collaboration and MoUs should be encouraged.
- An incubation center should be established.
- Multidisciplinary research should be enhanced.
- Placement and student progression details should be maintained.

**ACADEMIC AND ADMINISTRATIVE
AUDIT REPORT
2023-24**

- To appoint full time physical instructor for promoting sports activities.
- To focus on strengthening online resources in library.
- To introduce more capability development and skill enhancement courses.
- To promote collaborative activities with institutions, other universities, industries, corporate houses etc., for faculty exchange, student exchange/internship.
- The IQAC should play a dynamic role in initiating quality enhancing measures.

Recommendations

- Measures shall be taken to digitalise the library system.
- Quality exposure of teachers is very much appreciated.
- Promotion of a greater number of research collaboration and student exchange programme is recommended.
- The department shall focus on encouraging more undergraduate students to pursue higher degree program, including post-graduate studies and other advance degree programs.
- Faculty members are encouraged to increase the number of articles in Scopus and UGC Care listed journals.
- Remedial classes to be improved.
- Mentor-mentee system to be streamlined.
- Incubation centre should be established.
- Multidisciplinary Research should be enhanced.
- Placement and student progression details should be maintained.

1.**EXECUTIVE SUMMARY**

City College had agreed to provide access to Kongu Engineering College to undertake Environmental/Green and Energy Audit related measurements at their campus. This Audit has been conducted by a team of faculty members from Mechanical and Electrical Engineering Department of Kongu Engineering College. As there is no standard model for such an audit, the committee brainstormed and evolved a questionnaire. The data was collected, compiled and was finally analyzed by the audit team members. The remaining data which involved measurement using sophisticated instruments were done by the audit team members. By and large, the audit reveals a healthy environment in the campus. The committee has made short term and long-term suggestions to protect environment at higher levels and it is hoped that this will receive due attention of authorities and all stakeholders of the College.

1.1 ABOUT THE INSTITUTION

City College – Jayanagar was established in 2001 by Dr K R Paramahamsa, a prominent educationist and an eminent entrepreneur with over 25 years of experience. It is affiliated to Bangalore University, Recognised by Government of Karnataka and Approved by AICTE. Located in Jayanagar, the heart of Bengaluru city, the college has expanded over the last two decades with sophisticated infrastructure, experienced faculty and strategic tie-ups as part of the Institution's commitment to provide quality education in the areas of Science, Computer Applications, Commerce & Management studies.

The goals of the present environmental/green and energy audits typically include:

- To recognize, diagnose and resolve the environmental problems.
- To recognize the effects of an organization on the environment and vice versa.
- To identify and control the impact of activities of organizations on environment.
- To suggest the best protocols for sustainable development of organization and environment.
- To assess environmental performance and the effectiveness of the measures to achieve the defined objectives and targets.
- To identify the different pressures on organization to improve their environmental performance.
- To ensure that the natural resources are utilized properly as per national policy of environment.
- To establish the parameters for maintaining health and welfare of the community of the organization.
- To set the procedure for disposal of all types of harmful wastes.
- To reduce energy consumption.
- To give preference to the most energy efficient and environmentally sound appliances.
- To minimize the consumption of water and monitor its quality.
- To identify the risks of hazards and implement the policies for safety of stakeholders.
- To facilitate the stakeholders with different aspects of disaster management.
- To train all stakeholders of the organization and empower them to contribute and participate in the environmental protection.

To achieve the mentioned objectives, following stages are implemented. It includes three stages viz. pre-audit stage, audit stage and post-audit stage. Each of these stages comprises a number of clearly defined objectives, with each objective to be achieved through specific actions and these actions yielding results in the form of outputs at the end of each stage.

3. INTRODUCTION TO ENVIRONMENTAL/GREEN AUDIT

The various activities carried out in the academic institutions affects the environment in which it is situated. To address the issues, the institutions can successfully use auditing strategies to monitor their environmental-energy related activities. An "environmental audit" is a "systematic, documented, periodic and objective review to meet environmental requirements". Although environmental audits may be performed in many ways for different purposes, the reasons for performing an audit and the goals to be achieved will determine the type of environmental audit to be performed. The audit suggests different standard parameters, methods and projects for environmental protection. The green audit is useful to detect and monitor sources of environment pollution and it emphasizes on management of all types of wastes, monitoring of energy consumption, monitoring of quality and quantity of water, monitoring of hazards, safety of stakeholders and even the management of disasters.

3.1 WATER MANAGEMENT

One bore-well is used as the source of water. Recharging of ground water and rainwater harvesting are implemented by the college thereby conserving the water from its inception. This recharging and harvesting has been very helpful to augment the ground water. RO is installed in the campus for satisfying the drinking needs. The administration takes much efforts to save water. This can be seen from the slogans placed at most of the places.

Figure 1 : Slogan for water conservation

3.2 SOLID WASTE MANAGEMENT

The campus is cleaned on daily basis. Waste bins are placed in corridors, office and staff rooms. The waste generated in the campus includes wrappers, glass, metals, paper, etc. Old newspapers, used papers, files, etc. are given for recycling to external agencies. Glass, metals and other non-biodegradable wastes are given to external agencies where they are segregated and disposed/ recycled according to the nature of the waste. Non-biodegradable and plastic wastes are disposed by Municipal collection centre. Slogans placed at appropriate places help students understand the importance of food and impact of plastics. Bio degradable wastes are decomposed using composite pit and used as manures.

Figure 2 : Dust bins for collecting Waste

3.3 LIQUID WASTE MANAGEMENT

Sewage, Laboratory, hostel and canteen effluent waste are the major liquid waste. Effective drainage system is found in buildings for managing sewages. The laboratory waste water does not contain hazardous chemicals and periodical monitoring is done by the maintenance team. The college will be strict on the source reduction of chemical waste. Laboratories are purchasing chemicals for particular purposes and share surplus chemicals with other laboratories inside the campus.

3.4 E WASTE MANAGEMENT

Electronic goods are put to optimum use; the minor repairs are set right by the Laboratory assistants and teaching staff; and the major repairs are handled by the Technical Assistant and are reused. UPS Batteries are recharged / repaired / exchanged by the suppliers. E-waste like non-functional computers, equipment's and the other metal and wood waste are periodically collected by third party vendor for recycling.

3.5 GREEN COVER

The college is occupied with nearly 200 trees. Apart from that many rare species of plants are also grown in various parts of the college. Such a green cover helps in reducing the CO₂ levels in and around the vicinity of the campus.

Figure 3: Green Cover

3.6 TRANSPORTATION

College has no buses. Most of the students use public transportation for the transportation. Usage of common transportation helps in reducing the CO₂ emissions associated with the fuel usage due to individual vehicles.

3.7 BASIC AMENITIES

The basic amenities are present inside the campus itself. Cafeteria, and photocopying facility are available for the use of students and staffs. Also ramp are available in building for physically challenged students.

Figure 4: Common Facility – Ramp and Lift

3.8 GREEN EDUCATION

Events related to green practices are organized frequently through students' associations. **National Service Scheme (NSS) unit** is actively functioning in the institution and contributes towards inculcating green practices among the students and staff.

Indoor air quality (IAQ) refers to the quality of the air inside buildings as represented by concentrations of pollutants and thermal (temperature and relative humidity) conditions that affect the health and performance of occupants. It has become one of the most important issues of environment and health worldwide considering the principle of human rights to health that everyone has the right to breathe healthy indoor air. With the help of Indoor Air Quality meter (Extech EA80), CO₂ level, relative humidity and dry bulb temperatures can be measured. The measurements are carried out based on the protocol given by Central Pollution Control Board, Ministry of Environment and Forests, Govt. of India and the norms are discussed briefly in the subsequent sections. Indoor air quality test was carried out at different locations of the institution. Carbon dioxide levels are within the ASHRAE 55-1992 limit in the outdoor and indoor. The instrument used in the present audit was Extech Make EA80 Model of Indoor air quality meter. The range of the instrument is given below

- CO₂ range : 0 to 6,000ppm
- Temperature range : -4 to 140°F (-20 to 60°C)
- Humidity range : 10 to 95%RH

Figure 5. Indoor air quality meter

4.1 AIR QUALITY MEASUREMENTS

Table 1. Air Quality Measurements

Standard Level of CO ₂		ASHRAE and OSHA standards: 1000 ppm			
Standard Level of Relative Humidity		30 – 60 % (ASHRAE)			
Standard Level of Temperature		26 - 30°C +3°C (ASHRAE)			
S.No.	Location	CO ₂ Level (ppm)	Relative Humidity (%)	Temperature (°C)	Comments & Recommendation
Main Block- 2nd Floor					
1.	MBA Staff room	321	74.6	24.2	Within the limits
2.	Class room 218	319	75.5	24.5	Within the limits
Main Block-3rd Floor					
3.	Physics lab	325	75.2	24.3	Within the limits
4.	Chemistry Lab	326	76.2	24.4	Within the limits
5.	Class room-308 PUC commerce	322	79.6	24.2	Within the limits
Main Block-4th Floor					
6.	Class room 404	321	76.2	24.2	Within the limits
7.	Computer Lab-416	320	77.1	24.5	Within the limits
8.	Veranda	325	75.1	24.1	Within the limits

4.2 COMFORT LEVEL

Discomfort can be caused to the occupants due to

- Inadequate ventilation
- High temperature and humidity levels
- High levels of CO₂

Ventilation should be distributed effectively in spaces, and stagnant air zones should be avoided. ASHRAE recommends relative humidity levels between 30 and 60 percent for optimum comfort. Higher humidity may result in microbial growth. A consistently implemented good-housekeeping plan is essential to eliminate or reduce the microbial growth in the building.

Damp indoor environments have been associated with many serious health effects, including asthma, hypersensitivity, and sinusitis. Moisture incursion leading to dampness can result from water leaks and/or by condensation due to high humidity. Common sources of moisture in buildings include: plumbing; roof and window leaks; flooding; condensation on cold surfaces, e.g., pipe sweating; poorly-maintained drain pans; and wet foundations due to landscaping or gutters that direct water into or under the building. Water vapor from unvented or poorly-vented kitchens, showers or steam pipes can also create conditions that promote microbial growth. Well-designed, well-constructed and well-maintained building envelopes are critical to the prevention and control of excess moisture and microbial growth by avoiding thermal bridges and preventing intrusion by liquid or vapor-phase water. Management of moisture requires proper control of temperatures and ventilation to avoid high humidity, condensation on surfaces, and excess moisture in materials.

CO₂ is a colourless, odourless, and tasteless gas. It is a product of completed carbon combustion and the by-product of biological respiration. ASHRAE states that CO₂ concentrations in acceptable outdoor air typically range from 300-500 ppm. Adverse health effects from CO₂ may occur since it is an asphyxiate gas. The CO₂ levels can be used as a rough indicator of the effectiveness of ventilation, and excessive population density in a structure. CO₂ increases in buildings with higher occupant densities, and is diluted and removed from buildings based on outdoor air ventilation rates. Therefore, examining levels of CO₂ in indoor air can reveal information regarding occupant densities and outdoor air ventilation rates. High CO₂ levels may indicate a problem with overcrowding or inadequate outdoor air ventilation rates. CO₂, a by-product of normal cell function, is removed from the body via the lungs in the exhaled air. Exposure to high levels of CO₂ can increase the amount of this gas in the blood, which is referred to as *Hypercapnia* or *Hypercarbia*. As the severity of hypercapnia increases, more symptoms ranging from headache to unconsciousness appear, and it can also lead to death.

The traditional means of dealing with IAQ is through ventilation with outdoor air, but this approach assumes that the outdoor air is cleaner than the indoor air. In many locations and for many contaminants, this is not the case, and insufficiently treated ventilation air can actually make IAQ worse. Poor outdoor air quality includes regionally elevated outdoor contaminant levels, as well as local sources such as motor vehicle exhaust from nearby roadways and contaminants generated by activities in adjacent buildings. Some green building programs recommend across-the-board increases in ventilation rates, but such recommendations may be counterproductive in areas with poor outdoor air quality unless accompanied by appropriate and effective increases in filtration and air cleaning.

4.3 INFERENCES

- Carbon-di-oxide levels are within the ASHRAE 55-1992 limit in the outdoor and indoor. For indoor condition, CO₂ level should be less than 1000 ppm. CO₂ levels are well within the limits in all places.
- ASHRAE recommends relative humidity levels between 30 and 60 percent for optimum comfort. The humidity is within the limit in most of the places. The buildings are well planned and natural circulation of air is felt in all places.
- The average ambient temperature in the campus is found to be 32°C.
- Tree plantation is highly promoted and it is evidenced through the presence of trees in many areas where buildings have not been constructed.
- Awareness programmes on environmental consciousness are organized and it is evidenced through the student participation in the respective activities.

5.

LIQUID AND GASEOUS FUEL CONSUMPTION

The City college located in urban areas like Bangalore often enjoy significant advantages by not having college buses and hostels. Firstly, students have the flexibility to choose public transportation, reducing the institution's carbon footprint and fuel consumption. Secondly, this reduces operational costs, allowing the college to allocate resources to other academic and infrastructural improvements. Additionally, the absence of hostels encourages students to live closer to campus, fostering a stronger sense of community within the city. Overall, this model supports sustainable living and enhances the college's integration into the urban environment.

6.1 INTRODUCTION

An energy audit is an examination of the total energy used in a particular building or industry. The analysis is designed to provide a relatively quick and simple method of determining not only how much energy is being consumed but where and when. The energy audit will identify deficiencies in operating procedures and in physical facilities. Once these deficiencies have been identified, it will be apparent where to concentrate efforts in order to save energy. The energy audit is the beginning of and the basis for an effective energy-management programme. Human settlements encompass a variety of buildings. Regardless of the building involved, the audit procedure is basically the same. No two buildings are identical regarding energy usage. This is due to the possible variables affecting the buildings, e.g., occupancy rates, the building's size and orientation, its geographic location, the type of heating and cooling systems, the amount and types of equipment in use, the type of construction, the level of insulation and so on. Because each building is unique, it is difficult to generalize about energy-consumption patterns, and so it is necessary to conduct an energy audit for each building. This energy audit is aimed at obtaining a detailed idea about the various end use energy consumption activities and identification, enumerating and evaluating the possible energy saving opportunities.

6.2 ELECTRICITY CONSUMPTION

This energy audit is aimed at obtaining a detailed idea about the various end use energy consumption activities and identification, enumerating and evaluating the possible energy saving opportunities. It is a customary practice to conduct Energy audit every year in the Institute in order to estimate the energy consumption pattern.

The present level of energy consumption of the institution has been analyzed, averaged by collecting utility bills from June 2022 to May 2023. The same is detailed in this report.

Table 5 presents a comprehensive breakdown of electric energy consumption over the period from April 2022 to May 2023.

Table 5: Electric Energy Consumption details from June 2022 to May 2023

S.NO	Month	Total Electrical Units Consumed (kWh)	Amount Spent on Electricity in Rupees
1	June 2022	4215	46305
2	July 2022	5325	57361
3	August 2022	5310	56856
4	September 2022	3795	43818
5	October 2022	4170	47643

The table details the monthly usage in kilowatt-hours (kWh), highlighting any fluctuations or trends that occurred throughout the academic year. This data serves as a vital reference for understanding the consumption patterns and guiding future energy management strategies. By analyzing this information, stakeholders can identify areas for potential efficiency improvements and implement measures to optimize electric energy usage in the future.

This Figure 6 illustrates the overall electric energy consumption, measured in kilowatt-hours (kWh), over a specified period. By depicting the total units consumed, this graph provides a clear visual representation of the energy usage trends and patterns.

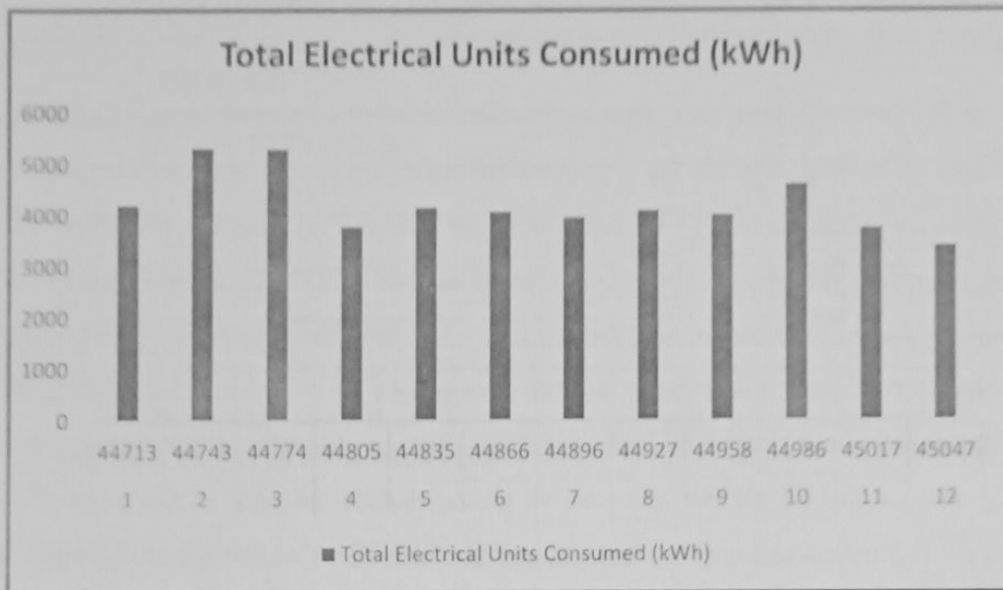

Figure 6. Total Electrical Units Consumed (kWh)

This figure 7. provides a visual representation of the expenditure on electricity, denoted in Indian Rupees (Rs.), over a specific period.

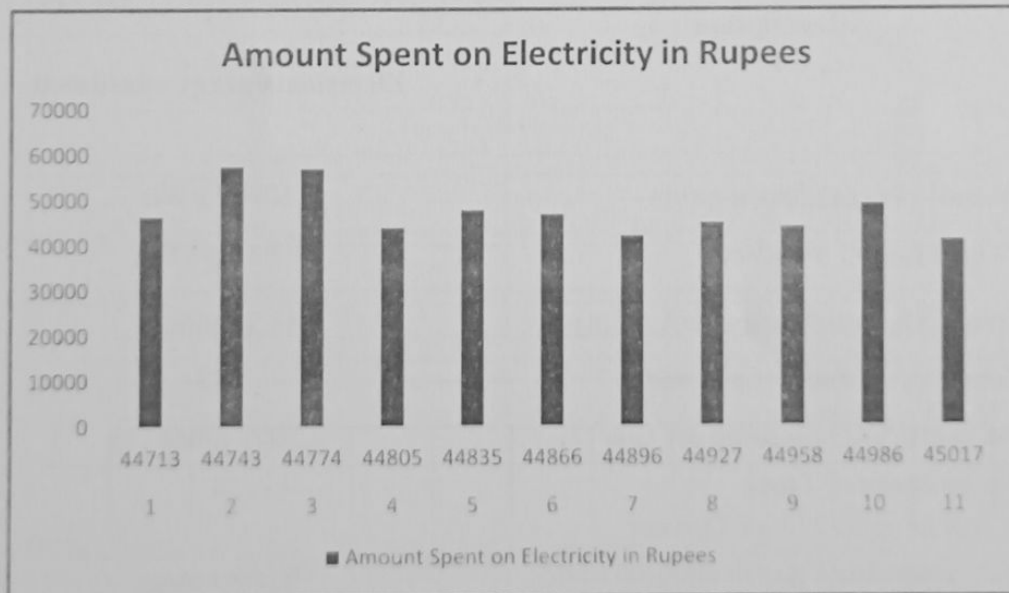

Figure 7. Amount Spent on Electricity in Rupees

7. **CARBON FOOTPRINT AND TOTAL ENERGY CONSUMPTION**

Carbon footprint Carbon foot print is the total amount of Green House Gases (GHGs) emitted in terms of carbon dioxide by a person, institute, company, state or country. Carbon footprint is typically given in tons of CO₂ equivalent per year. For calculation of carbon foot print the basic data regarding direct and indirect sources of emission of Green House Gases is needed. How we get around and commute to and from college each day has an impact on the environment through the emission of greenhouse gases into the atmosphere by the burning of fossil fuels (such as petrol). The most common greenhouse gases are carbon dioxide, water vapour, methane, nitrous oxide and ozone. Of all the greenhouse gases, carbon dioxide is the most prominent greenhouse gas. The release of carbon dioxide gas into the Earth's atmosphere through human activities is commonly known as carbon emissions. A matured tree absorbs about 22 to 40 kg of CO₂ per year.

Table 4: CO₂ Emissions and Total Energy Consumption

S.No	Description	Type of fuel and their conversion process
		Electrical energy consumed
1	Annual Energy Consumption	50807 kWh
2	CO ₂ Emission standards	0.95 kg/kWh
3	Total CO ₂ emission(tonne/Annum)	48.26 tonnes
4	Total No. of students and staff	442
5	Per capita CO ₂ emission per year	0.1091 tonne (+)
6	No. of Matured Trees (1 tree absorbs 22 kg CO ₂ /year)	4
7	CO ₂ neutralised due to matured trees (tonne/Annum)	0.088 tonnes
8	CO ₂ to be neutralised per capita per year	0.1089 tonnes(-)

8.

ENERGY SAVING OPPORTUNITIES

8.1 Lighting:

SAMPLE CALCULATION FOR ENERGY SAVING

DESCRIPTION	FTL FITTINGS	LED FITTINGS
		40W
No. OF FITTINGS	100	100
WATTS	40	18
TOTAL WATTS	4000	1800
CONSUMPTION UNITS PER DAY	40.000	18.000
RUNNING COST PER DAY	272.00	122.40
SAVINGS LED INSTEAD OF FTL IN WATTS	2200	
UNITS SAVINGS PER DAY	22.000	
UNITS SAVINGS PER MONTH	550.000	
RUNNING HOURS PER DAY	10	
PRESENT KSEB UNITS COST Rs.	6.80	
COST SAVINGS PER DAY Rs.	149.60	
COST SAVINGS PER MONTH Rs.	3740.00	
LED LIGHT FITTING TOTAL EXPENSES Rs. (100*Rs.650)	65000.00	
COST RETURN PERIOD IN DAYS	434	
COST RETURN PERIOD IN MONTHS	14.48	
COST RETURN PERIOD IN YEARS	1.19	

8.2 Fan:

SAMPLE CALCULATION FOR ENERGY SAVING

DESCRIPTION	NORMAL FAN	BLDC FAN
	80W	30W
No. OF FITTINGS	100	100
TOTAL WATTS	8000	3000
CONSUMPTION UNITS PER DAY	80.000	30.000
RUNNING COST PER DAY	544.00	204.00
SAVINGS BLDC INSTEAD OF NORMAL FAN IN WATTS	5000	
UNITS SAVINGS PER DAY	50.000	
UNITS SAVINGS PER MONTH	1250.000	
RUNNING HOURS PER DAY	10	
PRESENT KSEB UNITS COST Rs.	6.80	
COST SAVINGS PER DAY Rs.	340.00	
COST SAVINGS PER MONTH Rs.	8500.00	
BLDC FAN TOTAL EXPENSES Rs. (100*Rs.3250)	325000.00	
COST RETURN PERIOD IN DAYS	956	
COST RETURN PERIOD IN MONTHS	31.86	
COST RETURN PERIOD IN YEARS	2.62	

8.3 Air Conditioner:

SAMPLE CALCULATION FOR ENERGY SAVING

Model	Star Rating	EER	Cooling Capacity	Power Consumption (Watts/Hr)	No. of Watts saved / Hr to 0 Star Level	No. of Units saved / 8 Hr.	**Savings (Rs / Yr) (300Days)
Split AC	5 Star	3.59	6212	1732	1268	10.1	19240
Split AC	3 Star	3.12	6044	1938	1062	8.5	16192
Split AC	2 Star	3	6610	2210	791	6.3	12001

(Actual may vary)

- Raising AC setting by 1° can save 6% power
- Typically the temperature is set at 20-21 degree Celsius, whereas, the comfort number is 24-28 degree Celsius.
- A change from 20 degree Celsius to 24 degree Celsius, has the potential to save about 24 per cent of power.

9.	BEST PRACTICES
----	----------------

- The energy is also conserved by using natural light in the classrooms.
- LED bulbs and CFLs are being used in all possible locations as an energy conservation measure.
- Training programme conducted on Energy Conservation, Environment Impacts and Fuel Savings for Students, Staffs and Faculty Members (for the specified period) by any external agencies

10.1 OBSERVATIONS

- (i) Water saving plumbing fixtures may be provided in common utility areas
- (ii) Energy saving air-conditioners may be purchased for new building expansion.
- (iii) Use of appropriate slogans can be seen in many areas within the campus. This can remind the students/staff to have a sense of environment consciousness.
- (iv) Programmes are being regularly conducted for planting saplings and creating awareness about efficient energy usage.
- (v) Water metering facility may be provided for monitoring the water consumption and planning for future.
- (vi) Natural ventilation and day lighting is used in many places. Sun films may be provided for windows in air-conditioned laboratories.
- (vii) An Internal Audit Team may be formed and an audit may be carried out six months once.
- (viii) Equipment ID (Labeling) for major equipment like Air-conditioners, Water coolers etc. may be done for ease of maintenance.
- (ix) Grey water is used for gardening purposes. It can be used, but soil testing has to be done where the grey water is used. The grey water from RO plant has high alkalinity and it can reduce the percolation capacity of the soil. This can cause water logging problems in case of rain.
- (x) Diesel consumption in generator need to be recorded for every operation.
- (xi) It is good practice of testing the Earth Electrode and maintaining the minimum Earth Electrode resistance at college campus area.

10.2 GENERAL SUGGESTIONS

1. Class rooms and laboratory's to display messages regarding optimum use of electrical appliances like lights, fans, computers in the room
2. All computers to have power saving settings to turn off monitors and hard discs, say after 10 minutes / 30 minutes.
3. The comfort air conditioning temperature to be set between 24°C to 28°C.
4. It is recommended to replace fluorescent light by LED whenever they get fused.
5. It is recommended to install more solar PV panel.
6. Vehicle pass may be issued as a sticker and that can be pasted in the vehicles belonging to Faculty, Staff and Students. This is to track the number of vehicles commuting inside the campus and to prevent the entry of unauthorized vehicles. This will help to find the percentage of institute population using own vehicles.
7. All Faculty and non-teaching staff should be made aware of common safety procedures and location of centralized facility like RO Plant, Rain water harvesting tanks, etc.
8. Awareness programme on energy and environment consciousness may be organized at regular intervals. Each department may plan at-least one such programme in a year and Clubs like NSS, Rotary, etc may be involved.
9. Responsibility chart (Name and In-charge) may be made available at RO, Gardening and Transport Offices/rooms as like in laboratories. This will be a first level of motivation and bring better attachment to towards institution.
10. Green, Environment and Energy Audits (Internal) to be conducted every year, and progress can be analyzed by creating action taken report on the recommendations.
11. Switching to digital forms, electronic means of communication helps in avoiding paper wastage.
12. Eliminate or reduce paper processes by scanning paperwork that you produce or receive from others.
13. Instead of using several paper documents or records, compile important information into a shared, accessible folder in a Google Drive and keep it updated.

This section will include all the necessary documentation, such as:

1. **Energy Auditor Certificate**
2. **Green Auditor Certificate**
3. **Environmental Auditor Certificate**
4. **Accreditation Bodies Support Document**

National Productivity Council
(National Certifying Agency)

PROVISIONAL CERTIFICATE

This is to certify that Mr. / Ms. Logeswaran T
son / daughter of Mr. Thangamuthu
has passed the National Certification Examination for Energy Auditors held in October - 2011, conducted on behalf of the Bureau of Energy Efficiency, Ministry of Power, Government of India.

He / She is qualified as Certified Energy Manager as well as Certified Energy Auditor.

He / She shall be entitled to practice as Energy Auditor under the Energy Conservation Act 2001, subject to the fulfillment of qualifications for the Accredited Energy Auditor and issue of certificate of Accreditation by the Bureau of Energy Efficiency under the said Act.

This certificate is valid till the issuance of an official certificate by the Bureau of Energy Efficiency.

Place : Chennai, India

Date : 1st February, 2012

MEMORANDUM OF UNDERSTANDING

BETWEEN

BUREAU OF ENERGY EFFICIENCY

AND

NATIONAL ACCREDITATION BOARD FOR

CERTIFICATION BODIES

FOR

IMPLEMENTATION OF REGULATORY AND

VOLUNTARY FRAMEWORKS BASED ON

ACCREDITATION

MoU between BEE and NABC for implementation of Regulatory and Voluntary frameworks based on Accreditation.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MoU) entered into on the 28th day of May in the year 2018.

BETWEEN

The **Bureau of Energy Efficiency**, a statutory body under the Ministry of Power, Government of India, formed under Energy Conservation Act, 2001 (52 Of 2001), having its office at 4th Floor, Sewa Bhawan, R K Puram, New Delhi-110066 (hereinafter referred to as "BEE" which expression shall include its successors, administrators, executors and assignees)

AND

The **National Accreditation Board for Certification Bodies** (hereinafter referred to as NABCB), the national accreditation body of India for certification/inspection bodies, with its headquarters in the 2nd Floor, Institution of Engineers Building, 2, Bahadur Shah Zafar Marg, New Delhi 110002. NABCB is a constituent Board of the **Quality Council of India** which has been set up by the Central Government in partnership with CII, FICCI and ASSOCHAM and is an autonomous body with the **Department of Industrial Policy and Promotion**. NABCB, which expression shall, where the context so admits, be deemed to include its successors executors and administrators of the OTHER PART

henceforth be referred to as the 'Parties'.

Accordingly, the Parties have decided to enter into this MoU for the aforesaid objectives on the terms & conditions as mentioned hereunder.

ARTICLE 1

OBJECTIVE

The principal objective of this Memorandum is to establish a mechanism for cooperation between BEE and NABCB wherein NABCB will provide accreditation services to support BEE including accredited certification services through NABCB accredited product certification bodies who will carry out activities as IAME (Independent Agency for Monitoring and Evaluation) to support implementation of BEE's Standards & Labelling (S&L) Program.

ARTICLE 2

SCOPE

- 2.1 The MOU covers all activities needed to create and implement regulatory and voluntary frameworks based on accreditation with the aim of securing international acceptability, wherever possible.
- 2.2 Both parties recognize specifically the need for the following activities for the purpose which would be covered under this MoU:
- Implementation of BEE's S&L Programme by using NABCB accredited product Certification Bodies
 - Any other activity necessary for the smooth operation of BEE's regulatory regimes and voluntary initiatives

ARTICLE 3

RESPONSIBILITIES

3.1 Responsibilities of BEE

- BEE own the systems for supporting implementation of its regulations and voluntary initiatives.
- BEE will provide inputs with respect to its requirements to NABCB for developing the accreditation frameworks.
- BEE will aim to make available its experts, as and when required by NABCB, to support its accreditation activities.
- BEE, as the regulator, will keep NABCB informed of any changes in the regulations which may affect the accreditation activities.

3.2 Responsibilities of NABCB

- NABCB shall accredit product certification bodies to be empaneled under the BEE's S&L Program for scopes covering the products enlisted in BEE's S&L Program.

- NABCB shall support BEE in development of accreditation framework for international acceptance.
- NABCB shall support BEE in the development of systems for approval of NABCB accredited product certification bodies.
- NABCB shall offer services consistent with the international norms of accreditation activities for BEE's activities.
- NABCB shall give due recognition to international systems of equivalences in its services which support BEE's activities.
- NABCB shall take into account any specific requirements laid down by BEE in its accreditation services in support of BEE's activities.
- NABCB shall undertake any other activity necessary for the development and/or operation of BEE's initiatives consistent with its charter.
- NABCB shall update any changes in accreditation status of Product Certification Bodies (addition/deletion of scopes/suspension/withdrawal) to BEE.

ARTICLE 4

ADMINISTRATION OF MOU

4.1 To achieve the objective of the MOU, BEE and NABCB shall set up a Joint Coordination Committee (JCC) with the following composition:

DG, BEE (Chairman)
CEO, NABCB
One other member each from BEE and NABCB

4.2 The JCC may invite any expert to assist its work, if needed.

ARTICLE 5

CONFIDENTIALITY

Both parties agree that information obtained in carrying out the objectives shall be kept confidential, unless decided otherwise with mutual agreement

ARTICLE 6

DISPUTES

In case any disputes arise in implementing the MoU, these shall be resolved amicably by mutual consultation

ARTICLE 7

VALIDITY

This MoU shall be valid as long as both Parties desire and are meeting their responsibilities mentioned in this MoU.

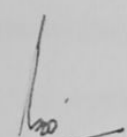

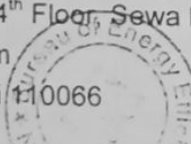

ARTICLE 8

MISCELLANEOUS

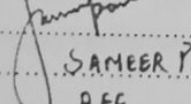

Neither Party shall use or publicize the MoU in such a manner as to cause any disrepute to the other party and shall not make any statement relevant to this MoU which may reasonably be considered to be misleading.

This MOU signed as hereunder shall be effective from the date of signing

It is mandatory to comply with all the essential requirements as given in APH 2023-24 (Appendix 6)

Important Instructions

1. The State Government/ UT/ Directorate of Technical Education/ Directorate of Medical Education shall ensure that 10% of reservation for Economically Weaker Section (EWS) as per the reservation policy for admission, operational from the Academic year 2019-20 is implemented without affecting the reservation percentages of SC/ ST/ OBC(NCL) / General. However, this would not be applicable in the case of Minority Institutions referred to the Clause (1) of Article 30 of Constitution of India. Such Institution shall be permitted to increase in annual permitted strength over a maximum period of two years.
2. The Institution offering courses earlier in the Regular Shift, First Shift, Second Shift/Part Time are now amalgamated as total intake and shall have to fulfil all facilities such as Infrastructure, Faculty and other requirements as per the norms specified in the Approval Process Handbook 2023-24 for the Total Approved Intake. Further, the Institutions Deemed to be Universities/ Institutions having Accreditation/ Autonomy status shall have to maintain the Faculty: Student ratio as specified in the Approval Process Handbook.
3. Strict compliance of Anti-Ragging Regulation, Establishment of Committee for SC/ ST, Establishment of Internal Committee (IC), Establishment of Online Grievance Redressal Mechanism, Barrier Free Built Environment for disabled and elderly persons, Fire and Safety Certificate should be maintained as per the provisions made in Approval Process Handbook and AICTE Regulation notified from time to time.
4. In case of any differences in content in this Computer generated Extension of Approval Letter, the content/information as approved by the Executive Council / General Council as available on the record of AICTE shall be final and binding.
5. As per the AICTE Notification dated 29.01.2014 and amended thereto, it shall be mandatory for each Technical Education Institution, University Department and Institution Deemed to be University imparting Technical Education to get accreditation (NBA) for at least 60% of the eligible courses in the next ONE (1) Years' time, otherwise EoA for the subsequent Academic Year (A.Y. 2024-25) shall not be issued by the Council.
6. Deemed to be University: Institutions Deemed to be Universities (Running Technical Education Programmes), it is mandatory to have AICTE approval from the Academic Year 2018-19 in compliance of the Hon'ble Supreme Court Order dated 03-11-2017 passed in CA No.17869- 17870 /2017.

It is mandatory to comply with all the essential requirements as given in APH 2022-23 (Appendix 6)

Important Instructions

1. The State Government/ UT/ Directorate of Technical Education/ Directorate of Medical Education shall ensure that 10% of reservation for Economically Weaker Section (EWS) as per the reservation policy for admission, operational from the Academic year 2019-20 is implemented without affecting the reservation percentages of SC/ ST/ OBC (NCL)/ General. However, this would not be applicable in the case of Minority Institutions referred to the Clause (1) of Article 30 of Constitution of India. Such Institution shall be permitted to increase in annual permitted strength over a maximum period of two years.
2. The Institution offering courses earlier in the Regular Shift, First Shift, Second Shift/Part Time are now amalgamated as total intake and shall have to fulfil all facilities such as Infrastructure, Faculty and other requirements as per the norms specified in the Approval Process Handbook 2022-23 for the Total Approved Intake. Further, the Institutions Deemed to be Universities/ Institutions having Accreditation/ Autonomy status shall have to maintain the Faculty: Student ratio as specified in the Approval Process Handbook. All such Institutions/ Universities shall have to create the necessary Faculty, Infrastructure and other facilities WITHIN 2 YEARS to fulfil the norms based on the Affidavit submitted to AICTE beginning with the Academic Year 2022-23
3. Strict compliance of Anti-Ragging Regulation, Establishment of Committee for SC/ ST, Establishment of Internal Complaint Committee (ICC), Establishment of Online Grievance Redressal Mechanism, Barrier Free Built Environment for disabled and elderly persons, Fire and Safety Certificate should be maintained as Approval Process Handbook and provisions made in AICTE Regulation notified from time to time.
4. In case of any differences in content in this Computer generated Extension of Approval Letter, the content/information as approved by the Executive Council / General Council as available on the record of AICTE shall be final and binding.

Pharmacy Institute: In compliance with the order dated 05.03.2020 passed by the Hon'ble Supreme Court of India in Transferred Petitions (CIVIL) No 87-101 of 2014, for the existing institutions offering courses in Pharmacy Programme, approval of Pharmacy Council of India (PCI) is mandatory and AICTE approval is NOT required. The requirements for running the Programme (Diploma / UG / PG) such as Land & Build-up Area, Student-faculty ratio, Intake etc. will be as per the respective regulatory body (PCI). In case of any inconsistency in the course name and intake for EoA issued by AICTE and the approval by PCI, the approval of PCI shall prevail.

Architecture Institute: In compliance with the order dated 08.11.2019 passed by the Hon'ble Supreme Court of India in CA No.364/ 2005, for the existing Institutions offering Courses in Architecture Programme, approval by the Council of Architecture (CoA) is mandatory and AICTE approval is NOT required. The requirements for running the Programme (Diploma / UG / PG) such as Land & Build-up Area, Student-faculty ratio, Intake etc. will be as per respective regulatory body (CoA). In case of any inconsistency in the course name and intake for EoA issued by AICTE and the approval by CoA, the approval of CoA shall prevail.

Deemed to be University: Institutions Deemed to be Universities (Running Technical Education Programmes), it is mandatory to have AICTE approval from the Academic Year 2018-19 in compliance of the Hon'ble Supreme Court Order dated 03-11-2017 passed in CA No.17869- 17870 /2017.
