The college was established in the year 2001 with the objective of providing quality education to society. The holistic development of a student is ensured through various co-curricular activities, sports, and extension activities held in the institution.

The following portrays the uniqueness of the College.

- The college which completed its 22 years of existence in 2023 has a strong bonding with the local people as we have students from diverse sections of society. This includes a number of SC, ST, Minorities, and marginalized sections of students.
- The college successfully implemented the CBCS system in the year 2018-19 and NEP 2020 curriculum in the year 2021-22 which was introduced by Bangalore University, Bangalore to which the college is affiliated. The focus is on skill development, career-oriented programs, industry visit, and industry-academia interaction and the college have brought all these aspects under curriculum implementation and enrichment.
- Teachers are very friendly, homely, and helpful, and respond to the personal grievances of students.
- The college has traditional and conservative culture apart from being safe. A blend of traditional and modern approaches is one of the distinguishing factors enabling many students to have global competencies.
- The college conducts extracurricular activities with a thrust on student participation.
- Utmost academic freedom and autonomy are given to teachers with the attrition rate being negligible.
- Various programs are organized to address gender equity, environmental conservation, scientific attitude, legal awareness, etc.
- Efforts are made to maintain a conducive eco-friendly and green campus with trees and lawns.

The following highlights the pursuit of the college in achieving academic excellence.

- The City College, Jayanagar under which the college is established is a non – hierarchical and non – interfering management. The college is guided by the management to adhere to the academic standards and achieve excellence.
- The adequacy of the teaching–learning infrastructure is ensured through the provision of a sufficient number of classrooms, laboratories, equipment and consumables, staff rooms, computers, printers, etc.
- The teaching and non–teaching staff have been filled as far as possible and efforts are made that no gaps are left in any of the positions.

- The college library has a collection of totals of 22000 volumes.
- Student Seminars and student research projects are conducted by a few departments.

Clubs/Cells / Associations	Key Activities
Internal Grievance Cell	<ul style="list-style-type: none"> • Confidential Fetching of Complaints through Complaint Boxes. • Addressing and Resolving of Academic and Non- academic Grievances of Students
Counseling Facility	<ul style="list-style-type: none"> • Trained Counselor for Personal Counseling. • Ensured Confidentiality
Mentoring and Tutorial System	<ul style="list-style-type: none"> • Personal Mentor and Tutor for each Student • Building close relationship among Teachers, Students and Parents • Helps Students in Stress Management.
Human Rights Cell	– For creating awareness among students about their individual rights.
Anti-Ragging Cell	Appropriate actions against ragging complaints.
Anti-Sexual Harassment Cell	Ensures security and Safety of Girl Students
Career Guidance and Placement Cell	<ul style="list-style-type: none"> • Career Guidance • Trainings by Reputed Institutes. • Conduction of Placement Drives

- The college facilitates teachers and students to participate in workshops and conferences held in other institutions as well as conduct such events within the college.
- Industrial/Educational tours and visits to various research institutions, companies, and industries help students gain real-time experience.

Various curricular and co-curricular activities that ensure social, academic, economic, artistic, spiritual and emotional enhancement of the students were conducted by our institution through clubs, cells and associations.

- **Peer Tutoring:** Peer tutoring programs is introduced to enhance improvements in academic performance of the students in CCE & SEE and significantly improve the results of the lower semesters. The collaborative learning environment will lead to better comprehension and retention of material.
- **Industry Visits-Free:** Institute facilitates to plan well-organized and informative industry trips by providing free bus facility, ensuring that students have the opportunity to engage meaningfully with the industry professionals and environments they visit and also to see how theoretical concepts learned in the classroom are applied in real-world settings.
- **Safety in the campus:** Safety measures such as CCTVs are installed throughout the campus to ensure 24 ×7 surveillance.

- **Industry Visits-Free:** Institute facilitates to plan well-organized and informative industry trips by providing free bus facility, ensuring that students have the opportunity to engage meaningfully with the industry professionals and environments they visit and also to see how theoretical concepts learned in the classroom are applied in real-world settings.
- **Counseling:** The Counseling is conducted severally and in group. The Teacher - Mentors counsel both boys and girls students assigned them. Any problem relating to the boys and girls students are commonly addressed by the college Disciplinary Committee. On certain occasion like International Women's Day, the group awareness programs are conducted in the form of special lectures by legal and medical experts.
- **Common Rooms:** Ladies common-rooms facilities are provided in the Institution ensuring proper privacy and facilities. Lady attenders are assigned the job of cleaning and maintenance of ladies common rooms.
- **Internship for Students:** The PG students undergo mandatorily the internship training of one month in their third semester. Under the guidance of faculty members, students approach industry/Company to work continuously for a month. After completion of internship, it is surprise to observe that attitudinal changes taken place in their studies and behavior.
- **Computer Based Coding and Debugging Learning:** Coding is an activity, which is common in case of Computer science subjects. Students are asked to designed and code the given problem. It conducted in the computer lab under the supervision of teachers. It is a training given to the students to enhance the learning experience through activities. It enhances the technical skills needed to undertake the job.

City College: Excellence in Industry-Integrated Learning

City College has long been recognized as a leading educational institution, particularly for its pioneering approach to industry-integrated learning. This approach has become a hallmark of the institution, aligning perfectly with its priority and thrust of producing industry-ready graduates who are well-equipped to meet the demands of an ever-evolving global marketplace.

Vision and Mission: Bridging Academia and Industry

City College's vision centers around the holistic development of students, ensuring they not only excel academically but also possess the practical skills and industry knowledge necessary to thrive in their chosen fields. The college's mission emphasizes the importance of experiential learning, continuous engagement with industry professionals, and the integration of real-world challenges into the academic curriculum.

This strategic focus is a response to the growing demand from employers for graduates who can seamlessly transition from the classroom to the workplace. By embedding industry practices within its educational framework, City College ensures that its students are not just passive recipients of knowledge but active participants in the learning process, which is deeply connected to industry realities.

Curriculum Design: A Dynamic and Relevant Approach

One of the key components of City College's industry-integrated learning model is its dynamic curriculum design. Unlike traditional educational models that often lag behind industry advancements, City College constantly updates its curriculum to reflect the latest trends, technologies, and methodologies in various industries. This is achieved through continuous collaboration with industry partners, ensuring that the courses remain relevant and forward-looking.

Each program offered at City College includes industry-specific modules, case studies, and project work that simulate real-world scenarios. For instance, the business management program includes modules on digital marketing, supply chain management, and financial analytics, which are co-designed with industry experts. Similarly, the engineering programs incorporate the latest advancements in robotics, artificial intelligence, and sustainable energy solutions.

Moreover, the curriculum is designed to be interdisciplinary, allowing students to gain insights from different fields and apply this knowledge in a broader context. This approach nurtures innovation and creativity, as students are encouraged to think critically and solve problems from multiple perspectives.

Industry Partnerships: Building Strong Collaborations

City College has established robust partnerships with leading companies across various sectors, from technology and finance to healthcare and manufacturing. These partnerships are integral to the college's industry-integrated learning model, providing students with direct access to industry insights, mentorship, and opportunities for practical experience.

Through these collaborations, City College has developed a range of initiatives that enhance students' industry exposure. Internship programs, for example, are a cornerstone of the college's approach. Every student is required to complete at least one industry internship during their course, with many programs offering multiple internships throughout the academic year. These internships are carefully curated to align with the students' career goals and academic progress, providing them with hands-on experience in real-world settings.

In addition to internships, City College regularly organizes industry seminars, workshops, and guest lectures. These events bring industry leaders, alumni, and professionals to campus, where they share their experiences, discuss industry trends, and provide valuable career advice. These interactions not only broaden the students' understanding of their field but also help them build a professional network that can be invaluable as they enter the workforce.

City College also collaborates with industry partners on research and development projects. These projects allow students to work on cutting-edge innovations, often leading to publications, patents, or new product developments. Such experiences not only enhance the students' resumes but also contribute to the advancement of knowledge within their field.

State-of-the-Art Facilities: Simulating Industry Environments

To support its industry-integrated learning approach, City College has invested heavily in state-of-the-art facilities that mimic industry environments. The college boasts advanced laboratories, simulation centers, and collaborative spaces equipped with the latest technology. These facilities provide students with the tools they need to experiment, innovate, and refine their skills.

For example, the college's engineering department features fully equipped robotics and AI labs, where students can design, build, and test their creations. The business school has trading floors that simulate the stock market, allowing students to experience real-time trading scenarios. In healthcare programs, simulation labs with life-like mannequins are used to teach medical procedures, providing a safe environment for students to practice before entering clinical settings.

These facilities are not just for learning but are also used for industry collaboration. Many companies partner with City College to use these facilities for training, testing, and development, further strengthening the bond between academia and industry.

Faculty: Industry-Experienced Educators

Another critical element of City College's success in industry-integrated learning is its faculty. The college prides itself on attracting educators who have substantial industry experience, ensuring that students receive practical, real-world insights in addition to theoretical knowledge.

Many faculty members have held senior positions in their respective industries, bringing a wealth of knowledge and experience to the classroom. Their industry backgrounds allow them to teach from experience, provide mentorship, and offer career guidance that is grounded in the realities of the job market. Moreover, these faculty members maintain close ties with their industries, facilitating ongoing collaboration and ensuring that the curriculum remains relevant and up-to-date.

In addition to full-time faculty, City College regularly invites industry professionals to serve as adjunct professors, guest lecturers, and mentors. This practice ensures that students are continually exposed to the latest industry practices and trends, further bridging the gap between academia and industry.

Student Success: Preparing Industry-Ready Graduates

The ultimate measure of City College's success in its industry-integrated learning approach is the performance of its graduates. The college's emphasis on practical, industry-relevant education has translated into high employability rates, with many students receiving job offers even before they graduate.

City College graduates are known for their ability to hit the ground running, as they are already familiar with industry tools, practices, and expectations. Employers often cite the graduates' practical experience, problem-solving abilities, and adaptability as key reasons for hiring them. Many alumni have gone on to hold leadership positions in top companies, further enhancing the college's reputation in the industry.

The college's focus on industry integration also prepares students for entrepreneurship. Many graduates have launched successful startups, leveraging the knowledge and networks they built during their time at City College. The college supports these entrepreneurial endeavors through incubation centers, funding opportunities, and mentorship programs, fostering a spirit of innovation and self-reliance among students.

Conclusion: A Model for the Future

City College's focus on industry-integrated learning is more than just a distinctive feature—it is a model for the future of education. As the world becomes increasingly complex and interconnected, the need for industry-ready graduates who can adapt, innovate, and lead is greater than ever. By aligning its curriculum, faculty, facilities, and partnerships with industry needs, City College is not only preparing its students for the workforce but also contributing to the advancement of industries themselves.

This approach has positioned City College as a leader in higher education, setting a benchmark for other institutions to follow. It demonstrates that when education is closely tied to industry, the results are not only academically enriching but also practically invaluable, creating graduates who are truly prepared to make an impact in the world.

Life at City College: A Five-Year Journey

Life at City College over the past five years has been an enriching blend of academic rigor, personal growth, and vibrant experiences. The campus buzzes with energy, where students from diverse backgrounds come together to learn, collaborate, and create lasting memories.

Academically, City College provides a solid foundation, with a curriculum designed to challenge and inspire. The faculty, with their expertise and dedication, push students to reach their full potential, ensuring that they are well-prepared for their future careers. Beyond the classroom, the college offers numerous extracurricular activities, from sports and cultural festivals to clubs and societies, fostering creativity and teamwork.

The friendships forged during this time are perhaps the most cherished aspect of life at City College. Late-night study sessions, group projects, and campus events create bonds that last a lifetime. The college's supportive environment encourages students to explore their interests, take risks, and grow both personally and professionally.

In these five years, City College becomes more than just an institution—it becomes a second home, shaping students into confident, well-rounded individuals ready to take on the world.

City College Hosts CCJ Business Conclave

(L to R): Krishna Kumar C R, Executive Director, KSDC; Surya Prakash Mohapatra, Chief Guest, Global Head of Wipro; Swathi, Lets Pro, Managing Director; Monica Kalluri, Vice President, City Group of Institutions; Vishwanath Raju, HR (HRAIMM) and Generative AI in HR (GAIHRMM); Venu Ganapuram, Sr. Principal Scientist, CSIR, National Aerospace Laboratories and Padma Shri Award Nominee; and Adam Tito, Programme Coordinator of City College and others were present.

CJ - A Business Talk Show' Industry Conclave was recently convened at City College, Jayanagar. A myriad of professionals and businessmen graced the event, offering their insights.

Addressing the gathering, Venu Ganapuram, Senior Scientist of CSIR, emphasised the importance of perseverance in one's quest for success. "Success is not easily attained; it necessitates struggle. Opportunities must be seized," he remarked.

Surya Prakash Mahapatra, Wipro Global Head, highlighted the significance of skill in

life. "Skill is invaluable; it cannot be pilfered. Without skill development alongside education, learning is futile," he said. Mahapatra further noted the impact of new technologies on employment, stressing the importance of readiness for emerging opportunities.

Pawan Sharma, Deputy Manager at Tech Bee, Sheetal Kallar, Founder of Pfinity Education, and other industry leaders served as resource persons during the session. Adam Tito, Programme Coordinator at City College, along with other dignitaries, graced the occasion.

We are delivering pragmatic education to college students. In this context, we are extending invitations to industrialists, who share their experiences with the students. This pursuit aims to facilitate a shift in the students' cognitive paradigms.

DEPARTMENT OF MANAGEMENT (PG)

Report On Entrepreneur carnival

Date: 31/05/2023 – 2.pm

Department: MBA

No. of Teams: 20 Teams

Venue: Quadrangle

City College, Department of commerce & Management – MBA (PG) Management club organized **Entrepreneur Carnival** on 31/05/2023.

One of the most and interesting event conducted by city college was the Entrepreneur carnival. Entrepreneurs have a lot of pride and often, want to do it all by themselves. Keeping this concept in mind the opportunities was given to the students to show their talents and skills. Various food stalls was made by students, their innovation and creativity has made the carnival a wonderful success.

Entrepreneur often fall into the trap of thinking “it’s just faster, easier or better for me to do it by myself”. While it may take time initially to train your staff properly or set up the appropriate procedures and systems, it will pay off the majority in the long run when you’re eventually freed up dealing with the basic day-to-day business task and can focus on the big picture items in your business that only you can and should do. The major objectives to organize these events are:

Objectives of Entrepreneur Carnival

- To create awareness for the students regarding Importance of selling of the product.
- To achieve and maintain leadership quality among the students
- To respect the individual, as peoples are the greatest assets.
- To create facilities and opportunities for individual or group development so as to match with the growth of the organization.

REPORT ON STUDENT COUNSELING

Counseling is an integral part to support the emotional health and holistic development of our students.

In City College we have appointed a student counselor to work with students, parents and educators to help the students succeed academically and socially. They provide one-on-one emotional guidance and help students plan for their futures by guiding them in building a career.

Dr. Amritha and Dr. Shreelatha has been appointed as a student counselor for resolving the issues of the students. The student counselor's work is assisting with conflict mediation and resolution between students, students and teachers, or parents and teachers to ensure students goals are not disrupted.

Green Campus

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

City College has made all the necessary efforts to involve the students, faculty and staff in "Green Campus Initiatives" by distributing plants to the local people on the roadside by giving them an awareness of keeping the environment green by planting a tree.

WASTE MANAGEMENT WORKSHOP

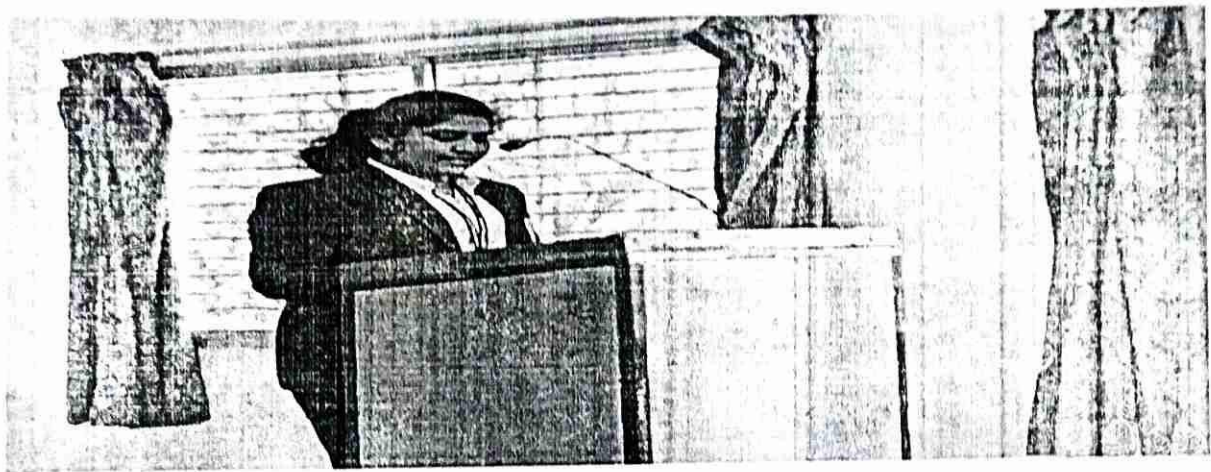

Date: 10th December 2021

Time: 10:30 am To 12.30 PM

Venue: CITY College JAYANAGAR

Speakers: Ms. Falak Shariff and Mr. Ramdev

Welcome speech was given by Ms. Nalini Student of V B.Com, followed by Introduction of the guests.

About Waste Management:

Waste Management is the collection, processing, treatment and recycling of waste (human waste and animals waste, including industrial waste). The process of Waste Management is constituted of a range of tasks which include: storage, transport, treatment and disposal of waste; monitoring, supervision and regulation of the development, processing, transit, treatment and disposal. Want to know about the different methods of waste disposal?

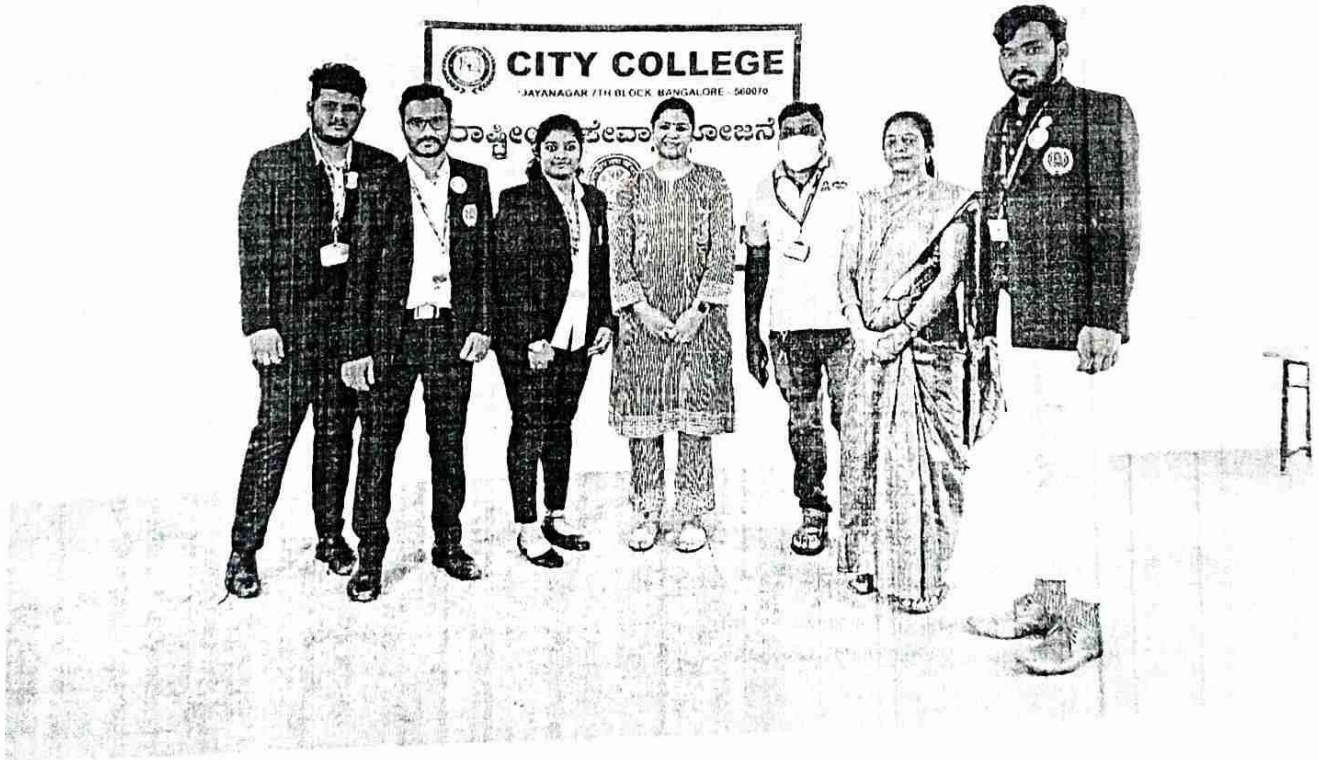

Principal
CITY COLLEGE
Jayanagar, Bangalore - 70

Ms. Falak Shariff gave us an insight about waste control or waste disposal is all the behaviors and acts necessary to handle the waste from its inception to its final disposal. This involves, but is not limited to, storage, transport, management and recycling of waste along with control and enforcement. It also covers the legislative and regulatory system for waste control, including recycling guidelines were included.

Types of Waste management:

- Hazardous waste management
- Non-hazardous waste management
- Waste treatment & disposal
- Waste management consulting, planning & training services
- Waste material recovery and recycling
- Provision of total waste management

Dr.B.R.Ambedkar Jayanthi Celebration

Date: 15-April-2022

Time: 09:00 am To 12.30 pm

Venue: City College Jayanagar

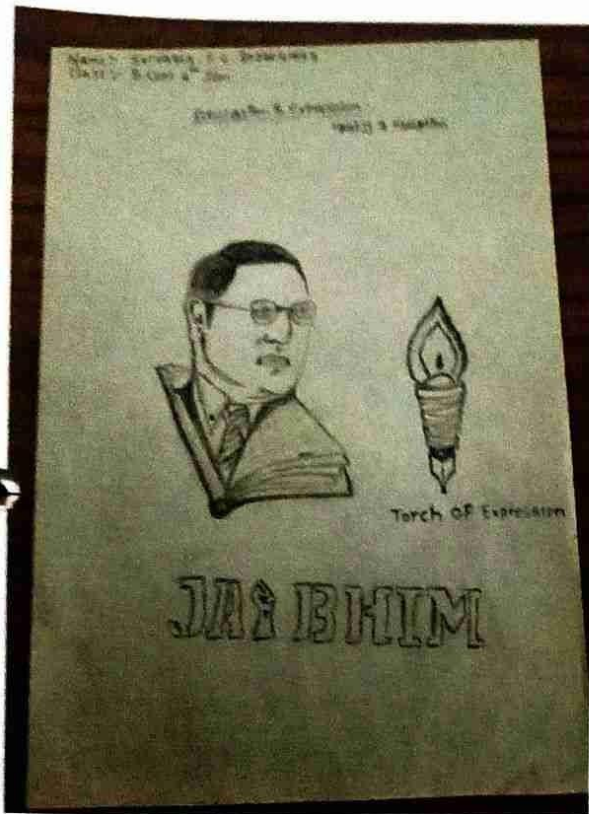

Ms. Monica Kalluri, our Vice President, expressed her strong support for the program's execution.

Students from 3rd BCA, Arathi and Aishwarya, delivered a welcome speech. Mrs. Sindhura, an assistant professor in the UG department, provided an overview of Dr. B.R. Ambedkar and his contributions towards Nation's freedom.

Dr. Veena Angadi and faculty from the UG department lit the lamp to begin the celebration. Following that, NSS team members organised several activities for the students, including an Essay writing, and Pencil Sketch competition.

Afterwards Dr. Veena Angadi and NSS Co-ordinators Dr. Sangamesh Shivanagi and Mr. Vijay Kumar distributed prizes for the above-mentioned competitions at the end of the day.

Dr. B.R. Ambedkar

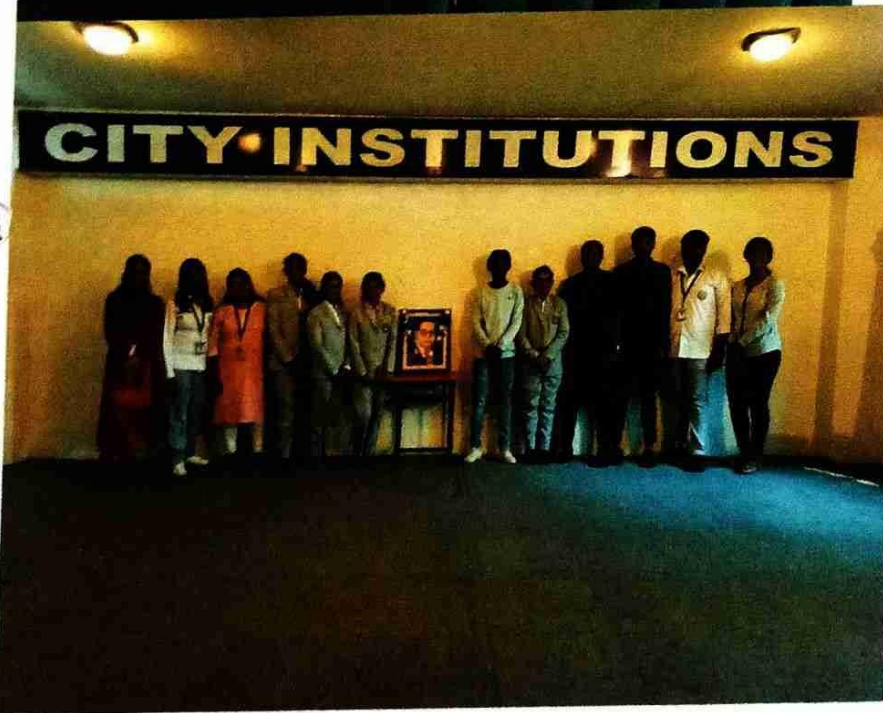

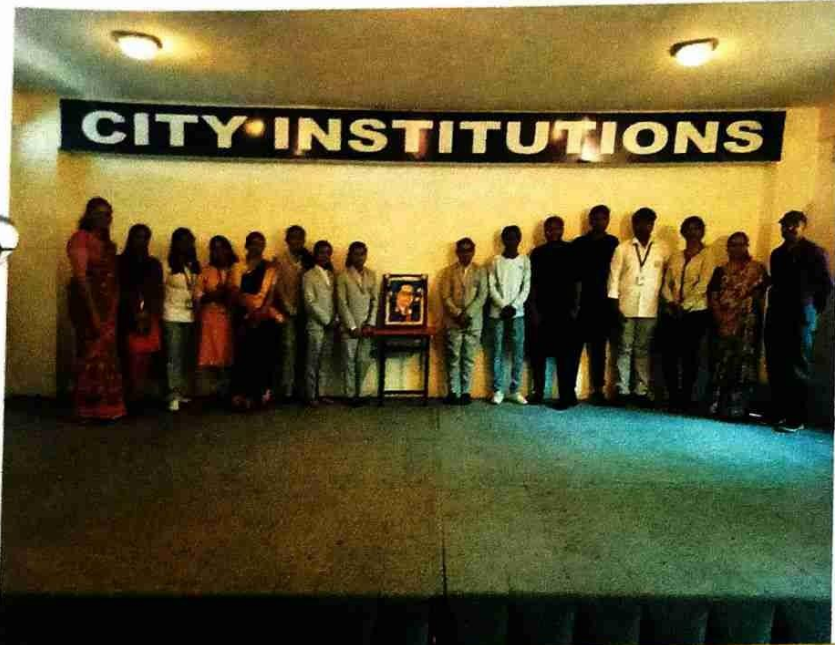

Bhimrao Ramji Ambedkar was an Indian jurist, economist, social reformer and political leader who headed the committee drafting the constitution of India from the constituent Assembly debates. Served as Law and Justice minister in the first cabinet of Jawaharlal Nehru and inspired the Dalit Buddhist movement after announcing Marxism.

Early Life

Ambedkar was born on 14 April 1891 in the town and military cantonment of Mhow. He was the 14th and last child of Ramji Maloji Sakpal, an army officer who held the rank of Subedar and Bhimabai Sakpal, daughter of Laxman Musbaidkar. His family was of Marathi background from the town of Ambadawade (Mandangad taluka) in Ratnagiri district of modern day Maharashtra. Ambedkar was born into a Mahan (dalit) caste, who were treated as untouchables and subjected to socio-economic discrimination. Ambedkar's ancestors had long worked for the army of the

Traffic Awareness Programme

Date: 25-March-2022

Time: 10.30 am To 03.30 pm

Venue: CITY College JAYANAGAR

Principal
CITY COLLEGE
Jayanagar, Bangalore - 70

The Principal of City College Jayanagar, Dr. Veena Angadi, oversaw the creation of the Traffic Awareness Program plan. Ms. Monica Kalluri, our vice president, offered her tremendous support for running the programme.

Students from the third year of the BBA programme Rajesh and Nalini gave the opening remarks. Sub-inspector Mr. Mahadev and his team members discussed the significance of the Traffic Awareness Programme with our faculty and students after Mrs. Sindhu, the NSS coordinator, gave an introduction to the programme.

Mrs. Sindhu, the NSS Coordinator, said the last thanks before the programme was over. The Chief Guest and his staff were afterwards honoured.

The principal of City College Jayanagar, Dr. Veena Angadi, oversaw the creation of the Free Eye Check-Up Camp concept. Ms. Monica Kalluri, our vice president, offered her tremendous support for running the programme.

The opening remarks were delivered by Hemanth and Swaroop, third-year BBA students. The NSS coordinator, Dr. Sanganagouda, and Mr. Vijay Kumar provided an introduction to the Nethradhama Eye Hospital (Dr. Mano). Later, Dr. Mano and his team spoke to our faculty and students on the value of regular eye exams.

After examining 125 members, they advised monthly checkups, medication, and surgery for a small number of them in order to preserve their vision for a longer period of time. Dr. Mano also provided a special concession of 50% to all of our faculty members.
